BUILT-TO-LAST

The Kamado is built from quality materials. With a Stainless Steel grill, ceramic body + fire box, cast iron charcoal plate, and bamboo handle; the Kamado is built-to-last.

VERSATILE COOKING ABILITY

The unique design of the Kamado produces an ideal cooking environment with, consistent, even, accurate and sustained temperature control. Slow cook, smoke, grill, roast and sear.

SELF CLEANING

After 30 min of running (empty of food) at 260 °C all food and debris will burn away and your Kamado will be clean and ready for your next feast.

PRODUCT DIMENSIONS

SAFETY INFORMATION

When opening the lid at high temperatures, it is essential to lift the lid only slightly at first, allowing air slowly and safely, preventing any back-draft or flare-ups that may cause injury.

IMPORTANT INFORMATION

- Curing your ceramic charcoal barbecue is important for its long-term operation and care. Avoiding the curing procedure could lead to damage on the unit.
- Do not use gasoline, white spirit, lighter fluid, alcohol or other similar chemicals for lighting or relighting.

ASSEMBLY

Some Assembly Required - Please refer to product manual for assembly instructions
