Minute minder	Auto warm-up function	STOP & GO function	Touch and slide controls Touch the control bar at the necessary heat setting
Child safety device	Acoustic signal Confirms use of the control panel		

BENEFITS

Hob2Hood With our innovative Hob2Hood technology you can effortlessly control your kitchen environment as you cook. This smart technology allows a compatible rangehood and hob to seamlessly work together to instantly get rid of unpleasant cooking odours. As you increase the heat, the temperature sensors automatically adjust your hood to your cooking intensity.	High performance induction technology Have complete control with precise cooking. Cook from simmer to a boil instantly while using induction technology. Providing the ultimate in safety induction cooking generates heat in the cookware, so surfaces around the pot are cool to touch. The cooking environment remains cooler and is therefore safer too. The surface is also easy to clean, as spills can be simply wiped away.
Maximum flexibility Maxisense induction cooktops are developed with three or four extra large zones, which detect pan presence and location and are not restricted to traditional circular zones	Professional results Maxisense Induction combines the speed of gas with the addition of precise control. A range of cooking zones allow the cook to prepare any sized meal faster with a more consistently high quality

Ultimate in safety and comfort

Induction cooking generates heat in the cookware, so surfaces around the pot are cool to touch, and the cooking environment remains cooler. The surface is also easy to clean, as spills are simply wiped away

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Cooktop type	Induction
Materials/Colour	black
Removable trim (for cleaning)	No
Wok included designed to fit cooktop	No
