PRODUCT DESCRIPTION – THE STORY

There's more to great coffee than choosing exquisite beans and the right brewing method. Freshly grinding the beans right before they come in contact with hot water makes the difference in taste that real coffee connoisseurs appreciate. The BISTRO Blade Grinder is the perfect tool for this. It's small enough to stay put on the counter for easy access and its cable can be stored inside the grinder at the bottom. It's got a transparent lid so the fineness grade can be observed. The longer the grind the finer the powder. This powerful and handy grinder is made from stainless steel, plastic and rubber and it comes in a selection of beautiful colors to fit any kitchen counter's color scheme. We think it's quite cute.

KEY FEATURES & BENEFITS – AN OVERVIEW

Capacity –

Measurements 90 x 95 x 166 mm/3.5 x 3.7 x 6.5 in (Depth x Width x Height)

Packaging type Giftbox

Approx. Giftbox Dimension 112 x 112 x 184 mm / 4.4 x 4.4 x 7.25 in (Depth x Width x Height)

Pieces per sales unit 1

Unit per master carton 2

Material Plastic, Stainless Steel, Rubber

Dishwasher safe No

Microwave safe No

Induction No

Ovenware No
