Roboking Turbo Robotic Bagless Vacuum

Quietly and
Efficiently
at Work

Available July 2016

Features

- ✓ **Smart Inverter Motor**
- ✓ **Smart Turbo Mode**
- ✓ **Corner Master**
- ✓ **Dual Eye 2.0™**
- ✓ **Easy Out Dust Bin**
- ✓ **Digital Bumper**
- ✓ **Low Noise**
- ✓ **Running Time - up to 100mins (Normal Mode)**

Smart Inverter Motor

The LG Roboking Turbo features an inverter motor which is lightweight and compact. Designed with no internal brushes the motor is efficient and durable.

Smart Turbo Mode

Carpets trap hair, dust and fine particles which can be harder to pick up. Smart Turbo detects carpet and provides a more powerful suction setting in those environments.

Corner Master

A master in the corners, the square shaped design and long brushes enable a closer reach into corners compared to round robotic vacuum cleaners.

Dual Eye 2.0™

Upper Camera captures 30 images per second. Continuous comparison of these images generates localisation and mapping information such as the optimal cleaning path. The Lower Camera reads the floor to measure moving distance and detects changes in flooring.
