## Dimensions

Depth	600mm
Height	Ⓐ 1045 - 1075mm
Width	Ⓑ 600mm

## Features & Benefits

### What is SmartDrive™?

Fisher & Paykel SmartDrive™ machines are made of just three main parts: a small computer, a flexible agitator, and a simple direct-drive motor. This means washing machines that can sense each load, use less water and run with less moving parts.

### Fastest Full Load

At between 59-69 minutes to wash a full 8.5 kg load, our 8.5kg Top Loaders are up to 112 minutes faster than other brand 8.5 kg top loaders. Based on Performance Standard AS/NZS 2040.1.2005 Performance of household electrical appliances – Clothes washing machines.

### Eco-Active™ Wash Technology

Giving an impressive 4 star energy rating the Eco-Active™ Wash is proven to boost soil removal, be more effective at killing bacteria, and save on power bills.

### SmartTouch™ Controls

The SmartTouch™ Control Dial accesses SmartDrive™ technology through 12 cycles: Regular, Heavy, Delicate, Wool, Easy Iron, Bulky, Allergy, Quick, Bowl Clean, Rinse, Spin and Sports.

### Easy Installation

The self-levelling feet system makes installation easy and ensures the washer stays level. This minimises out-of-balance and vibration, which keeps noise levels to a minimum.

### Designed to Match

With matching control panels and finishes our Top Loader washers and Compact Dryers make the perfect pair not only looking good but also allowing extra space in the laundry. You can place a Vented Dryer inverted overhead or place any dryer alongside.

### Strong Safe Lid

FabricSmart™ has an extremely robust, soft close glass lid made from laundry chemical resistant 6mm glass. The kitchen quality soft close mechanism makes it family-safe, avoiding any slamming or jamming.

### Flexible Finned Agitator

Fisher & Paykel's flexible finned agitators ensure less tangling and provide better clothes care

### Excellent Credentials

3.5 star water rating and 4 star energy rating, 1100 rpm spin speed.
