

Tefal | PUREGLISS ANTI-CALC FV8062

PUREGLISS
QUICK & EFFICIENT

PERFECT RESULTS WITH NO RISK OF
STAINS*, DAY AFTER DAY

Powerful

No risk of stains

Our patented Micro Calc Filter technology ensures long lasting performance by collecting build up of calc deposits to keep your garments and linen spotless and protected from stains.

Perfect results

Impressive power for perfect ironing: 2400 W of power for a fast heat-up, a continuous steam output of 50 g/min and a 240 g/min burst of steam to tackle stubborn creases with total ease.

Sanitising steam power

The combination of high temperature and steam pressure kills up to 99.99% of bacteria on all ironable fabrics, for exceptional hygiene and healthier garment care.

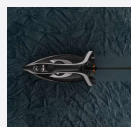

Uniqueness

Exclusive 2-in-1 Micro-Calc Filter : delivers 100% filtered steam to stop calc stains on linen*

A brand-new exclusive calc management system uses innovative Micro-Calc Filter for a 2-in-1 action: calc is stopped by the filter and pure steam delivered onto the linen which reduces the risk of damage to your clothes. The Micro-Calc Filter is easily removable and easy to clean. Enjoy worry-free ironing and exceptional results!

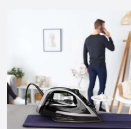

Convenient

Excellent Glide

Fast and effortless ironing with Durilium Airglide Autoclean technology: Optimal steam diffusion, exceptional glide, and an Autoclean catalytic coating for stain-free and flawless performance over time.

Safety auto-off

Standby mode is automatically activated when the iron is left unattended—after 8 minutes when left on its heel, and after 30 seconds when left resting on its soleplate or side.

Easy vertical steaming

Steaming of delicate and large garments is made easy with the vertical steam feature, ideal for last-minute touch-ups and getting creases out of suits and other hanging garments—even curtains.

*stops calc particles > 0.4 mm
