8kg Condenser Dryer in White Finish

Sensors adjust
the drying time
for an optimal
result

Available May 2014

RRP: \$1,179[^]

Features

- ✓ 8kg Capacity
- ✓ Stainless Steel Drum
- ✓ LED Interior Light
- ✓ 4 Sensors
- ✓ Time Remaining Display
- ✓ Time Delay

Condenser Dryer

LG's Condenser Dryer - removes the need to fit venting kits in your laundry. This makes installation easier. The condenser drying process removes moisture from the clothes without raising the humidity in your laundry.

Sensor Dryer

LG's Sensor Dryer - uses 3 sensors to monitor the heat exchange, moisture and air temperature for optimal drying results. The sensors automatically control the drying time and temperature based on the selected program and help prevent over drying.

Included Accessories

Stacking Kit - allows you to securely stack this machine on top of your front load washing machine. This is suitable for both 550mm & 600mm washing machines.

Drying Rack - great for items that you don't want to tumble dry such as shoes or backpacks.
