Recommended airspaces

Please note:
Doors are designed to sit proud of cabinetry (not flush).

When positioned in a corner area, spacing of at least 350mm on the fridge side and 250mm on the freezer side, will allow the doors to open enough to enable the removal of the bins and glass shelves.

If you do not have a cupboard with a rear gap, the recommended clearance on top increases from 50mm to 90mm (x) and 32mm to 72mm (y).
