- Made in Italy

ELECTRICAL REQUIREMENTS:

This warming drawer can be connected to a 10 AMP wiring connection. For more information, please refer to a qualified electrician.

TOTAL RATED POWER:

230 V / 50-60 Hz - 440W

WEIGHT:

15kg gross

PRODUCT DIMENSIONS:

*Refer to full page Dimensions Sheet or Product Manual

TEMPERATURE SELECTION

The temperature knob lets you select a temperature between approximately 30 degrees to 85 degrees.

ANTI-SLIP MAT

The anti-slip mat helps the crockery from sliding. The bottom can be hand-washed with warm water. The anti-slip mat can be placed back in drawer after completely dried.

USEFUL INFORMATION

The appliance is designed exclusively for the heating of dishes which are suited for this purpose.

The appliance is equipped with a hot air system. A fan creates excellent distribution of warmth from the drawer heating element. Air circulation heats the dishes evenly and quickly.
