

# MERO SLIDE BAR/105 DUO AIRSTREAM WITH INTEGRATED WATER INLET

**rogerseller**

[3200622]

Mero is an ultra slim shower range, presenting a softer rail design with the latest in function technologies, a water inlet valve located within the rail and a 1500mm Chromoflex hose.

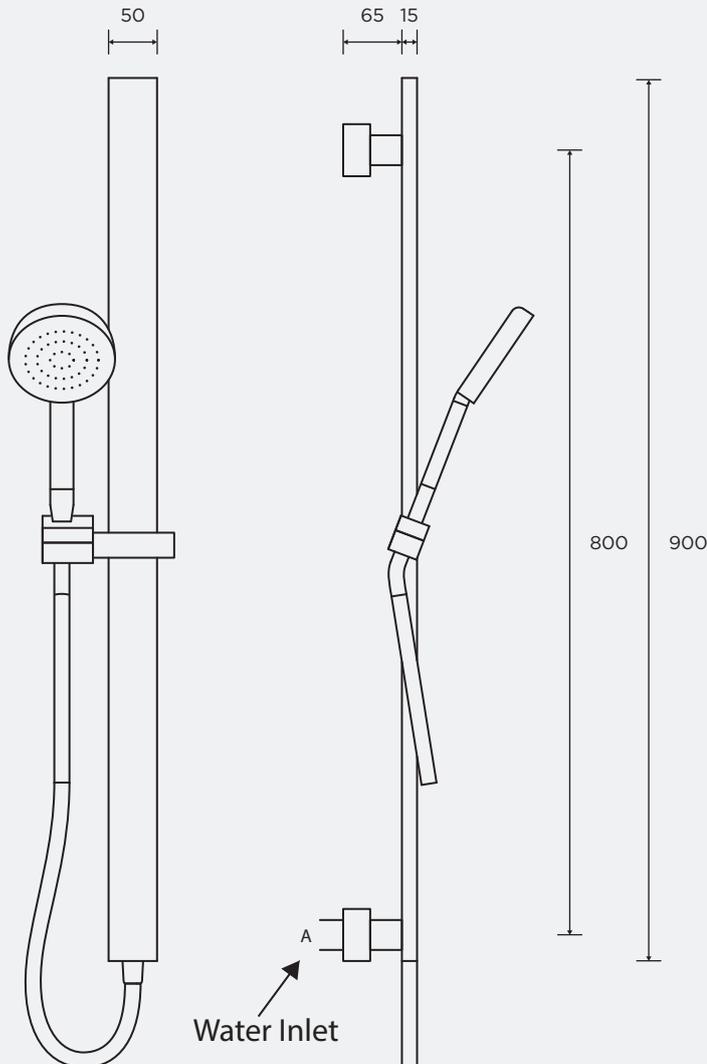

The shower is easy to use with a push button slide rail adjustment and a full yet light showering system which is further enhanced by an AirStream Technology, mixing a generous volume of air with water providing a more luxurious shower experience.

The handshower is rounder in shape and is multifunctional with two adjustable sprays: rain and booster massage.

Mero has a 3 star, 9L per minute WELS rating and is supplied with flow regulators.

**Width (mm):** 50  
**Depth (mm):** 80  
**Height (mm):** 900

**Water inlet:** Requires a 1/2" Male BSP nipple protruding approximately 30mm from finished wall surface.
