Fast wash program

Delay end option to plan
when your wash finishes

Soak option
You no longer have to fill the
laundry tub or bucket full of
soapy water to soak clothes.

Agitator wash action

Wash options you really need

Easy clean lint filtration

BENEFITS

Ezi Reach control panel

With a sleek control panel thats simple to use and wipe clean, washing becomes that much easier. Designed with your needs in mind, the clever interface is clear and easy to read, and accessible even when the lid is up. With all of your wash cycles together on a familiar looking dial, you can select your wash at the touch of a button. And a simple wipe is all you need to keep the stylish soft touch buttons sparkling clean.

Better results with a new gentler drum

Designed to treat your clothes with the care they deserve, the gentle drum has thousands of holes to enhance the water flow rate so that detergent dissolves faster. This improves effectiveness and ensures a deeper clean.

Convenient time remaining display

Timing is everything. All models feature a time remaining display so you don't have to wait around for a wash to finish. You can better plan your day and get on with things you'd rather do.

Durable lid to take the weight

You will open and shut the lid of your washing machine thousands of times. So the EZI Set washing machine features a redesigned lid that is not only stylish but also durable. It will easily withstand a basket full of wet towels thrown on top.

Agitator wash action

With a gentle and effective agitator wash action, all of your clothes are in safe hands. Our proven top load washer agitator system ensures your entire load is washed evenly and gently. The agitator helps to prevent tangling during the wash and spin cycles.

Specifications

PRODUCT PROFILE
