Dimensions

Depth	280mm
Height	407mm
Width	880mm

Features & Benefits

Edge to edge extraction

Filters effectively reach edge to edge, which maximises the amount of extraction area.

Full surface lighting

The even lighting provides full coverage of the cooktop, illuminating food in its true colour, with no hot or dark spots and no glare or shadows. The dimmable lights have fade in and fade out features.

Easy to use

This easy to use rangehood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.

Energy efficiency

Powered by a brushless DC motor, the Integrated Rangehood operates more efficiently, more reliably and with less noise than units with AC motors.

Effortless cleaning

The stainless steel filters are easy to remove and are dishwasher safe. A self-contained grease tray within the filters makes them very easy to clean.

Simple installation

The simple installation process is compatible with most precut cabinetry. The adjustable mounting system can be installed with 16mm to 38mm cabinetry board.

Achieve the invisible

This high quality integrated range hood seamlessly blends behind cabinetry in a variety of kitchen layouts. Beautiful in its simplicity, this product has brushed finished surfaces with no visible screws.
