

SFA304X

Smeg Thermoseal electric oven, Classic design

MULTIFUNCTION

CONTROL PANEL

Descriptive text appears next to function icons to ensure instant recognition.

SMEG THERMOSEAL

Thermoseal creates a perfectly-controlled and stable cooking environment. Splatter and temperature fluctuations are minimised when cooking in a Thermoseal oven; cooking and preheat times are reduced. External temperatures are minimised thanks to our active cool door system — drawing room temperature air around the exterior of the oven cavity, cooling the oven door and carcass whilst not interfering with the internal oven temperature. Our Venturi system is designed to eliminate excess humidity and maintain the ideal cooking environment.

EVER-CLEAN ENAMEL

Smeg's superior enamelling process is unique, creating a silky smooth finish on oven interiors and baking trays. A combination of formula, application, baking and curing — our enamel finish is the same grade on all our ovens, is durable and easy to maintain.

VAPOUR CLEAN

A small volume of water is placed in the recess on the floor of the oven, and the side walls, roof, base and rear wall are sprayed with water and a small amount of detergent; the Vapour Clean selection heats and circulates the vapour and softens any baked-on food residue on the pretreated cavity surfaces for easy wipe clean.

COOL DOOR

The new oven doors are all at least triple glazed; pyrolytic model ovens have four layers of glazing. Each layer of glass has a thermo-reflective inner face to limit the absorption and eventual transference of heat to the outside surface. Each inner layer is separated by an air gap through which the cooling fan channels forced air through each layer of glass — resulting in the oven door maintaining a safe low temperature, cool enough to touch, and a cooler kitchen environment.

EAN 8017709176679

finish	satin stainless steel, fingerprint proof
size	592mmH x 597mmW x 570mmD
capacity	79 litre
thermostat	50–280°C
installation	flush fitment, underbench or wallmount
cooking levels	five shelf heights plus recessed floor for pizza stone
multifunction	seven cooking functions, defrost
semi automatic	end-cooking alarm, minute minder
cleaning	Vapour Clean, Smeg Ever-Clean enamel
lighting	automatic, 1x side-mounted 40 watt, halogen
power	220–240V, 50/60Hz 3000W connection 13A current
furniture	1 x chromed grill insert 2 x chrome shelves 1 x 20mm enamelled baking tray 1 x 40mm enamelled baking tray 1 x roof liner
options	PRTX 35cm diameter pizza stone PPR2 square pizza stone PALPZ single-handle pizza paddle GT1P partial telescopic racks GT1T total telescopic racks
warranty	two years parts and labour
