A.I. Direct-Drive for Intelligent Fabric Care

A.I. technology is used to assess weight and fabric softness, automatically selecting the optimal washing pattern for intelligent fabric care.

Turbo Clean™

By replacing the second deep rinse with a jet spray, this machine can wash a half load in under an hour on the Turbo Clean 59 cycle[^].

[^]Lightly soiled, half load maximum.

Allergy Care and Steam+ Cycles

With a press of a button, add steam to selected cycles to open up fibres and assist in reduction of common household allergens.

Inverter Direct-Drive Motor

Less moving parts, less vibration & more durability than conventional LG belt and pulley motors.
