### 6 Motion Wash Technology

**LG 6 Motion Wash Technology**- LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle. Your washer works out the best combination to give you an outstanding wash, whilst also caring for your clothes.

### On-Board Heater

**The On-Board Heater** allows this Top Loader to achieve a 60°C washing temperature when you need it, like when you are washing sheets or towels. Higher temperatures help remove common household allergens and stubborn stains.

### Stainless Steel Tub

**A Stainless Steel Tub** is more effective to help control bacteria growth than tubs made of plastic or containing plastic agitator or pulsator. A hygienic tub helps maintain a hygienic wash.

### Tag On with NFC

**Tag On with NFC** enables the download of additional washing programs via a Smartphone to the washer. It also lets the user view usage history and diagnose any issues with the washer.
