

T784 Condenser Dryer

Product overview

Line: Logic
Dryer load: 6,5 kg

Specifications

PROGRAMS

Lower drying temperature: 40°C-60°C: Lower temperature of drying
Program memory: Program memory
StartDelay setting: Presetting time delay of start

BASIC INFORMATION

Dryer load: 6,5 kg
Drum volume: 112 l
Type of dryer: Condensing
Installation type: Freestanding
Height setting: Adjustable feet

OTHER

Drum: Stainless steel inner/outer drum
Voltage: 240 V
Current: 10 amp
Connection rating: 2400 W
Dimensions of the product (W×H×D): 59,5 × 84,5 × 58,5 cm
Depth with door open: 1165 mm
Weight net: 44 kg

Features

PROGRAMS

Programs: Airing, Auto Down, Auto Dry, Auto Extra dry, Auto Iron dry, Auto Jeans, Auto Normal dry, Auto

OPTIONS

Anticrease
Lower temperature of drying
StartDelay setting: Presetting time delay of start
Audio signal SoftSound
Function Time Save

CAPACITY

Dryer load: 6,5 kg
Drum volume: 112 l

ENVIRONMENT

Market for recycling
ISO 14001
ISO 9001

TECHNOLOGY

Humidity sensor

CONSTRUCTION

Anticrease
Butterfly drying system
Stainless steel inner/outer drum
Ball bearing suspension
Heavy duty life-tested motor

COMFORT

Activity indicator
Remaining time on display
Type of display: LCD display
Drum illumination
Noise level: 66 dB(A)
Door opening: Reversible door opening

SAFETY

Can be opened from the inside
Automatic switch off when door is open
