

Westinghouse WVE606SA 60cm Stainless Steel Multifunction Oven

Whether it's a big family gathering or a simple Sunday roast, our HUGE 80-litre gross capacity oven has room for everything.

Handy self-cleaning catalytic liners absorb the fat given off during the cooking process. The fats are then vaporised by the heat of the oven, making cleaning a breeze.

Telescopic runners for easy and safe access to your cooking.

For extra peace of mind, the cool to touch multi-layer glazed door is safer for families.

Exclusive to NARTA members

SAFR: November 2018
