

DISHWASHER

60cm

DW87S

LOADING FLEXIBILITY

Even when fully loaded, the height of the top basket can be adjusted in one simple operation without having to be removed. Similarly, the bottom basket plate holder racks can be lowered to provide extra space for saucepans and, if necessary, the cutlery basket can also be removed. Everything has been designed to maximize loading, functionality and flexibility.

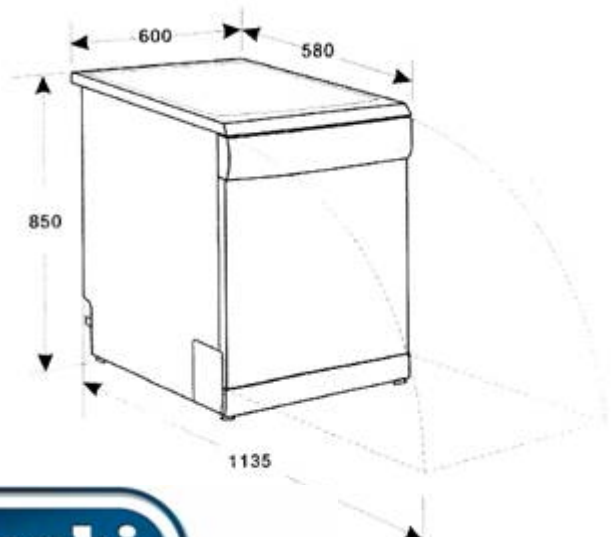

HEATING ELEMENT OUTSIDE TUB

Concealed element to ensure food remains or other items do not bake onto the exposed element.

DW87S – 60cm Dishwasher

- Full clad stainless steel Dishwasher allowing it to be installed as a free standing dishwasher.
- 7 wash programs
- Can wash up to 14 place settings per cycle
