

PAL®+ BT shown in Black, Red, Yellow/Black, Chrome, Blue, Pink, and White

## PAL+ BT Portable Audio Laboratory®

FM / DAB / DAB+ / DMB / Bluetooth® portable radio

### Colorful Digital Performance

Tivoli Audio has never been one to create products in just one or two colors. We believe each person is as unique as the music they listen to, and with this in mind, we have created seven bold color options for the PAL+BT to reflect your style. The new PAL+ BT has easier-to-use hands-on controls, improved DAB+ radio reception, enhanced sound performance, and simple Bluetooth connectivity. Use the included remote to perform basic volume adjustments or recall station presets or enter the menu to set the alarms and adjust the EQ or the screen brightness. The PAL+ BT has all this while staying true to the original vintage-inspired design of the PAL released 20 years ago.

The new PAL+BT is our boldest portable digital radio to date.
