- Thermal shock resistant ceramic glass
- Easy to clean frameless glass

Ceramic Cooking

The heating element is formed of a coil of resistant material which reaches the working temperature Quickly.

Easy to clean with simple minimalistic design.

Touch Control

Intuitive touch control on ceramic glass gives sleek designer lines while also being easy to operate and clean.

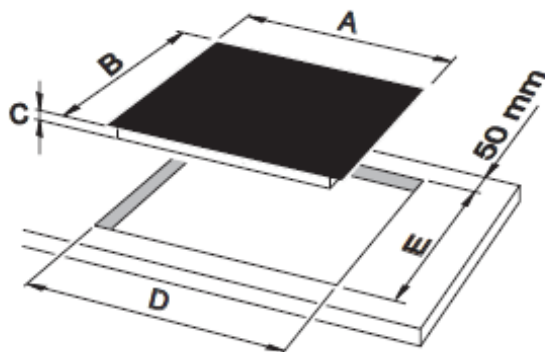

Residual Heating

A residual heat indicator will light up when a cooktop zone heats up, and stay lit until it has cooled to a safe touch temperature.
