### 90CM CLASSIC PYROLYTIC OVEN

MADE IN ITALY  
Since 1948

### THERMOSEAL

The seal of Smeg's quality, technical excellence and taste: succulent roasts, crisp pastry and impressive baking is achieved in Smeg's unique, perfectly controlled cooking environment. Thermoseal maintains the perfect atmospheric balance in the cavity for optimum cooking conditions.

### PYROLYTIC CLEANING

Smeg's pyrolytic cycle locks the door and heats the oven to around 500°C. This process carbonises any food residue or burnt-on grease to a small amount of ash, which can be simply wiped away with a damp cloth.

### EVER CLEAN ENAMEL

The superior quality of Smeg's signature Ever Clean enamel, which is highly durable and easy to clean, is the result of over 70 years of enameling expertise; ensuring long-life performance of every Smeg oven.

### COOL DOOR TECHNOLOGY

Smeg's Cool Door system is a combination of technologies which is driven by a 22 blade tangential fan and includes a heat exchange baffle system. It draws cool air up through the panes of heat-reflective glass in the door, making it safe to the touch even when the oven is at pyrolytic temperatures of around 500°C.

### FULL MATTE BLACK

The new full matte black in the Classic aesthetic perfectly expresses Smeg's "Made in Italy" ethos of design, performance, attention to detail and incredible style.
