Welcome to the new easy...

Doing your washing is one of life's necessities, but that doesn't mean it has to be a hassle. With our new range of Simpson top load washers, we've made washing easier, faster and more convenient, so you can get on with living and spending time with your family. From the convenience of auto water level sensing to our efficient agitator wash action, you'll enjoy great wash results that are gentle on your clothes.

As always, the new washers boast the same Simpson tradition of durability, reliability and efficiency. That's because for over 150 years, Simpson have been the trusted experts in the laundry providing Australians with economical, long lasting and hardworking appliances.

A control panel that's not out of control

The new designed interface is simple and easy to read. The touch control and LCD screen display uses clear and familiar icons. You can set customise a wash with a quick touch. One easy wipe and it's clean. (Available on EZI Sensor Washer SWT8012 and SWT951).

Save your favourite program

Save time and make life a little easier by saving your favourite wash program. This easy to use feature allows you to save your most used cycle and then use it at the touch of a button. (Available on EZI Sensor Washer SWT8012 and SWT951).

more time living...

Simpson have redesigned our top load washers range, giving you our best ever range to get you out of the laundry and back into life.

At the heart of the new range is an easy to use control panel, offering you more time saving wash options at the touch of a button. You'll find all functions easy and simple to use, even a favourites program, so you can get started quickly. Timing is everything, so all models feature a time remaining display so you don't have to wait around for a wash to finish. You can better plan your day and spend more time with family and friends.

As would be expected, the new washers are constructed with the same Simpson tradition of durability, reliability and efficiency, with the promise of our best ever wash results for years to come.

A control panel that is easy to use

Although washing may not be one of your favourite tasks, the EZI set controls make it a whole lot quicker and easier. Designed to be easy to read, you'll find all your wash cycles on one familiar looking dial. Washing becomes effortless when the quick press of a button is all you need to program a wash. The soft touch buttons add extra style, while also being simple to clean.

Agitator wash action

With a gentle and effective agitator wash action, all of your clothes are in safe hands. Our proven top load washer agitator system ensures your entire load is washed evenly and gently. The agitator helps to prevent tangling during the wash and spin cycles.

...less time washing

Don't wait for a wash to finish

All EZI Set models feature a time remaining display so you don't have to wait around for a wash to finish. You can better plan your day and get on with things you'd rather do.

Soak in the tub

With the Soak feature, you no longer have to fill the laundry tub or bucket full of soapy water to soak clothes. Just use the machine tub to soak clothes in and it will drain out after you finish. Clean and simple!

Durable lid to take the weight

You'll open and shut the lid of your washing machine thousands of times, so the redesigned lid is not only stylish but also durable and scratch resistant. It will easily withstand a basket full of wet towels thrown on top.

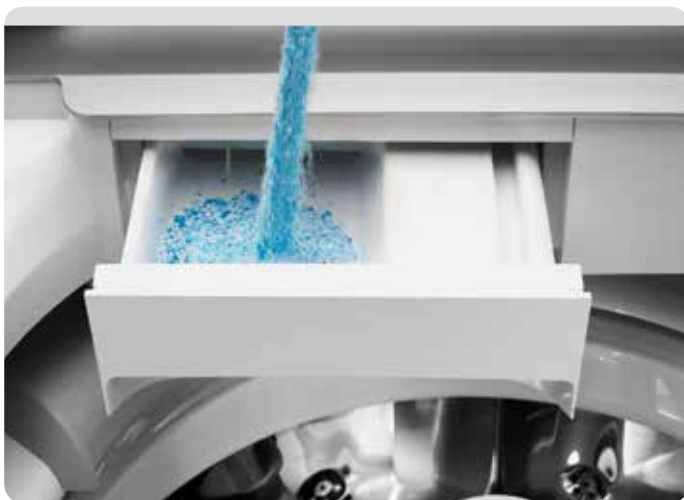

...New design

Auto water level sensor

Enjoy a machine that does the thinking for you. The auto water level sensor automatically selects the ideal water level for your wash. Whether you do a small or large load, you'll only use the water you really need. *(Available on SWT9542, SWT8542, SWT8012, SWT951).*

Washers big enough for every household

There always seems to be a never ending mountain of clothes in every household. The right size washer can save you from throwing on load after load to get through a dirty pile. That's why the EZI range comes in 5.5kg to a big 9.5kg wash size.

New detergent drawer

No more detergent making a mess around the bowl. Our detergent drawer makes it the EZI way to efficiently disperse detergent into the wash. Takes liquid and powder detergent.

(Available on SWT8012, SWT951, SWT7542, SWT8542 and SWT9542).

Soft closing lid

Our soft closing lid closes gently without force. This means no more loud bangs in the laundry and an end to tiny fingers getting in the way.

(Available on SWT9542, SWT8542, SWT8012, SWT951).

Child safe lid lock

For added peace of mind, the child safe lid lock prevents the lid from being opened during the spin cycle. *(Available on SWT9542, SWT8542, SWT8012, SWT951).*
