- Adjustable ceramic grinders

Easy to use

- Intuitive colour coded user interface
- Ergonomic in day to day operation

Easy to clean and maintain

- Automatic coffee circuit cleaning
- Removable brewing group

PHILIPS
Saeco

sense and simplicity

Highlights

Compact and stylish

Compact and stylish, the Syntia is designed to delight both your palate and your eyes — the perfect fit for a modern kitchen.

Espresso and long coffee

Whether you want to enjoy an espresso or a long coffee, your favourites are accessible at the touch of a button

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Auto coffee circuit cleaning

This feature makes sure that each and every coffee is as fresh as possible: Before going into and when returning from stand-by mode, the machine automatically cleans its coffee circuit.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Colour coded user interface

Easy and intuitive interactions thanks to the combination of LED and buttons — this interface directly communicates the key operating messages.

Ergonomic day to day

Philips-Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.
