Easy clean lint filtration	Stronger lid Redesigned stylish and durable lid.	Time remaining display Quickly see time remaining so you don't have to wait around for a wash to finish.	No mess detergent drawer

Product Details

Benefits

Ultra Wash System

Experience an amazing wash performance with the Ultra Wash System. This innovative new feature moves clothes in multiple directions to deeply clean and gently wash even your most soiled items. With a super effective wash action and Gentle Wash Agitator, your clothes will always come out looking their best. The gentle drum features thousands of holes to enhance the water flow so that detergent dissolves faster and makes your clothes cleaner as a result. And when the wash is done, unwanted residue can be easily cleaned from the lint filters. We like to call this Ultra Wash System.

An inverter motor that really lasts

Enjoy better care for your clothes with our super efficient inverter motor. It's not only durable, but also saves on energy too. So reliable, it has a 10 year warranty on the inverter motor (parts only).

Better results with a new gentler drum

Designed to treat your clothes with the care they deserve, the gentle drum has thousands of holes to enhance the water flow rate so that detergent dissolves faster. This improves effectiveness and ensures a deeper clean.

Soft closing child-safe lid

Say goodbye to loud bangs in your laundry. Our soft closing lid gently shuts without force every time. This thoughtful piece of design also features child-safe lid lock to put an end to tiny fingers getting caught in the lid.

Auto water level sensing

The washing machine automatically senses the water level meaning you only use the water you really need.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Capacity (Kg)	10

ENERGY

Energy Star Rating	3.5
Energy consumption cold water (kWhr/yr)	101
Energy Consumption Warm (KWhr/yr)	462
Water efficiency star rating	4
Water consumption (litres)	104
