The unit cannot read my USB device.

- Once you have plugged your device to the unit, you may need to switch on the USB device before it can operate.
- This unit does not support a direct USB connection with a computer. You need to use a USB device, a MP3 player .
- Check that the files system of your USB device is formatted into the FAT or FAT 32 format. USB device formatted into NTFS are not compatible with this unit. Caution: if you attempt to modify your file system, formatting your device will erase all data. Please refer to your USB devices instruction manual first.
- Warning: Connect your USB device directly to the USB port of the device. Using an extension cable is not recommended and may cause interference and failure of data transfer.

6. SYSTEM SETUP

DVD menu setup

Press the **SETUP** button on the remote control, the SETUP MENU (main) will be displayed. After accessing the setup menu, press the direction buttons for up and down movement to select an item desired, then press the **ENTER** button to confirm. Press **LEFT** direction button return to the menu of upper level. To exit the setup, press the **SETUP** button again. In the SETUP MENU, you may choose any of the following options as you like.

6.1 LANGUAGE SETUP

Select **Language** in the setup menu, and display the **Language** submenu:

6.1.1 OSD Language

Use this item to select the language of the setup menu and screen display.

6.1.2 Subtitle

This option provides the preset subtitle language.

Follow the operating instructions stated in "DVD MENU SETUP" in combination with the desired option.

6.1.3 MPEG4 Subtitle

MPEG4 Subtitle setting is used for choosing the language domain, (only for MPEG4). After select one language domain (alphabet), when playback a MPEG4 with external subtitle, the subtitle display will use this language alphabet. If you find the displaying subtitle correctly, please ensure the external subtitle language and select the correct language.

6.1.4 Audio
