Features & Benefits

13 fabric care cycles
13 fabric care cycles including Quick, Bulky and Handwash. The specially designed cushioned drum provides a gentle, effective washing action protecting clothes while delivering an optimal wash performance.

SmartDrive™ technology
SmartDrive™ Technology is a gentle, quiet, and efficient combination of smart electronics and a direct drive motor that senses the load to deliver better fabric care.

Quick cycles
When time is short, you can select a quick 30 minute wash without compromising cleaning and fabric care. Vortex Wash allows most cycles to take less than 1 hour to complete. Water is forced from the bottom of the drum, so detergent and heat reach your clothes faster, cleaning quickly and avoiding over-washing.

Wash larger loads
The large 12kg drum can wash both small and large loads as well as bulky items like a king size feather doona. The wide door opening makes it easy to load and unload. Large capacity is time saving, as a full week's laundry can be done in just a few loads. Accurate water level sensing makes it highly efficient at washing different load sizes.

Add a Garment
The Add a Garment feature allows you to quickly add or remove any size garment mid cycle. Simply press the Add a Garment button and the door will unlock. If the drum water is too high, just enough will be drained out before the door is unlocked.

Designed to match
The complete package for a beautiful laundry. The 12kg washing machine is designed to match our 9kg Heat Pump Condensing Dryer or 8kg Condensing Dryer. With outstanding aesthetics and complimentary wash and dry cycles, they become the perfect pair to deliver complete fabric care.
