

Finally: coloured tapware that won't wear. Titan coloured and metallic tapware features coatings that are 15 times stronger than steel itself.

Model 1 & Model 2

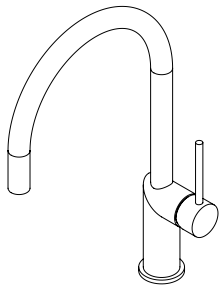

While some tapware seems to wear out with every turn, Titan won't. That's because all our tapware is crafted from the same durable material as our sinks: surgical stainless steel.

1

Tehnical data:
Designer: Titan
Material: Brushed Stainless Steel
Working pressure: 50 - 1000 kPa
Test pressure max. 1600 kPa Flow
Star rating: 5 Star / 5.5 l/m
Hot water connection: max. 80 ° C
Soft-closing ceramic seal
Tap Hole Ø30-35 mm
Dimensions: 335 (height) x 225 (reach) mm
