

In-Ear Wireless Headphones

C7wireless Special Edition

Treat your ears to something special

The C7wireless Special Edition updates Pioneer's C7wireless to deliver the chic, compact, and comfortable experience of our "C Series" headphone line. *Bluetooth*® 5.0 wireless technology provides Qualcomm® aptX™ HD audio for 48 kHz/24-bit high-res-equivalent playback. Anti-resonant aluminum housing and base enclose ϕ 8 mm (ϕ $\frac{5}{16}$ ") rare-earth-magnet drivers and are finished in a luxurious high-texture alumite process. Robust construction maintains clarity from deepest bass to smooth, unfatiguing treble. Long 12-hour playtime and simple remote make these a satisfying wireless audio solution.

Qualcomm® aptX™ HD audio

Enjoy HD wireless playback on supported devices at up to 48 kHz/24-bit courtesy Qualcomm aptX HD audio. The earphones also support AAC for high-quality audio especially with iPhone.

Qualcomm® aptX™ HD

Aluminum housing and base for clear, tight sound

Housing and base are crafted in aluminum so you can hear deep bass and more detail without vibration. Powerful ϕ 8 mm (ϕ $\frac{5}{16}$ ") rare-earth-magnet drivers reproduce music with excellent bass extension and smooth, refined treble.

Stamina Battery for 12 hours playback

Stamina Battery provides 12 hours' continuous transmission including playback. A full recharge takes just 1.5 hours.

Fast Charge in minutes

Fast Charge function replenishes the C7wireless Special Edition with two hours of playtime in just 15 minutes. Top up the battery to cover your commute while you're preparing to leave work or home.

Connect two devices at once

Multi-Point Function wirelessly connects two devices at once. You can listen to music on a personal phone, digital audio player, or tablet while being available to take incoming calls from another connected smartphone.

Note: Only one device can make/receive calls or play audio at the same time.

Clearer calls with noise suppression functions

New noise- and wind-noise suppression technologies join echo cancellation to make hands-free calls clearer than you're used to from conventional earphones.

Soft, comfortable, lightweight style

Supple elastomer neckband conforms to your neck shape, resists slipping, and packs down for compact storage. Remote box with mic is ideally positioned to rest comfortably on your neck for hands-free control of music and calls.

Easy-to-use remote-control functions

Everything needed for smooth hands-free operation is available via three intuitive buttons on the remote. You can activate your voice assistant on Siri or the Google Assistant enabled devices by holding down the center button.

SOUND QUALITY

- › Qualcomm® aptX™ HD audio supports hi-res-equivalent playback (compatible Android™ smartphone or DAP required)
- › Aluminum housing and base construction reduces vibration for superb clarity
- › Powerful ϕ 8 mm (ϕ $\frac{5}{16}$ ") rare-earth-magnet dynamic drivers
- › Supports AAC codec for high-quality sound well suited to iPhone

USER-FRIENDLY CONVENIENCE

- › Features *Bluetooth*® 5.0 wireless technology
- › Touch earphones and NFC-compatible device for instant auto pairing
- › Stamina Battery provides up to 12 hours continuous playback
- › Fast Charge replenishes battery for 2 hours playtime in just 15 minutes
- › Battery fully recharges in approximately 1.5 hours
- › Multi-point Function connects two devices (transmission limited to one device at a time)
- › Simple 3-button remote for hands-free control
- › Press-and-hold activation of device's voice assistant

INDUSTRIAL DESIGN

- › Beautiful high-texture alumite-processed finish over aluminum bodies
- › Housing incorporates gold ring with high-quality texture
- › Unified neckband, body, and ear-tip color-schemes in Black or White
- › Pliant elastomer neckband softly conforms to body shape, resists slippage, enhances comfort, and folds down for compact storage

- › Adjustable slider can cinch L/R cables at desired length
- › XS silicon ear-tips included for female listeners and children

SPECIFICATIONS & ACCESSORIES

- › Model number: SE-C7BTSE
- › Transmission method: *Bluetooth*® Version 5.0
- › Output: *Bluetooth* Standard Protocol Power Class 2
- › Transmission distance: Up to 10 m (32 ft.)
- › Frequency used: 2.4 GHz (2.4000 GHz–2.4835 GHz)
- › Modulation: FHSS
- › Supported *Bluetooth* profiles: A2DP/AVRCP/HFP/HSP
- › Supported codecs: SBC/AAC/aptX/aptX HD
- › Multi pairing: Max. 8 devices
- › Multi-point: Max. 2 devices
- › Power source: DC 3.7 V rechargeable lithium-ion battery
- › Battery life: Max. 12 hours continuous transmission (including audio playback)
- › Charging time: Approx. 1.5 hours
- › Type: Fully enclosed dynamic headphones
- › Driver: ϕ 8 mm (ϕ $\frac{5}{16}$ ") dynamic driver
- › Frequency response: 10 Hz–22 kHz
- › Weight: 20 g (0.7 oz.) including remote cable and battery
- › Supplied with XS/S/M/L silicon earphone tips, Micro-USB charging cable, warranty card, Quick Start Guide, Safety Guide

Package dimensions (W x H x D)
115 mm x 168 mm x 38 mm (4 $\frac{17}{32}$ " x 6 $\frac{5}{8}$ " x 1 $\frac{1}{2}$ ")
