Features & Benefits

Multi-function Flexibility
This built-in oven has nine functions with pre-set temperatures, including Roast, Pizza Bake and Fan Forced, giving you the ability to use a variety of cooking styles.

Generous Capacity
Designed for multi-shelf cooking, this built-in, 85L total capacity oven is one of the largest on the market. The spacious internal cavity provides ample room to create multiple dishes at once.

ActiveVent Technology
Our unique ActiveVent technology controls moisture levels while AeroTech™ technology circulates heat evenly - ideal for multi-shelf cooking.

Pyrolytic self-cleaning
Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

CoolTouch Door
The CoolTouch door of this built-in oven is safe to touch from the outside. Sturdy, fully extendable shelves slide all the way out, reducing the need for you to reach inside.

Refined styling
With sophisticated handle styling and black glass finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.
