

DWAI6D1 5XT3

60CM DIAMOND SERIES SEMI-INTEGRATED DISHWASHER - TALL TANK

MADE IN ITALY

Since 1948

EAN 8017709297152

Dimensions	598mmW x 858mmH x 570mmD
Finish	Stainless steel
Total functions	10 + 5 Functions
Capacity	15 Place settings
Warranty	Five years parts and labour

PLANETARY WASH SYSTEM

Smeg's world-first planetary wash system features a single wash arm which rotates around two axes, significantly increasing wash pattern density and cleanliness. Angled jets reach in between every piece in the dishwasher for the most thorough and energy-efficient wash to date.

SANITISE WASH PROGRAM

Within two hours, this program can clean your dishes, baby bottles, and cutting boards whilst removing 99.9% of germs (VDE tested).

ACTIVE ACQUASTOP

By electronically determining when and how much water to let into the dishwasher, Smeg's Active Acquastop automatically controls the water feed at the tap. This ensures there is no pressure in the inlet hose, eliminating the risk of bursting.

5 STAGE FILTRATION SYSTEM

The ultimate dishwasher filtration system maintains a high quality wash by trapping food, thus preventing it from re-entering the wash system.

DRY ASSIST

Smeg's Dry Assist system opens the door slightly at the end of the wash program. This option allows the residual heat of the machine to dry the load, including hard-to-dry items naturally and thoroughly, without the consumption of additional energy.
