

Key Features

1. BubbleWash™ and BubbleSoak™
2. Cycles - 59min Super Speed, 15 mins Quick Wash
3. Hygiene Steam Cycle
4. 5 Star Energy Rating
5. AI Control
6. SmartThings App Enabled
7. Drum Clean+
8. StayClean Drawer
9. 20 Year Digital Inverter Warranty¹

1

Hard on dirt, gentle on clothes

BubbleWash™ and BubbleSoak™

Ensure a thorough clean by pre mixing detergent and air to make foam from the beginning of the cycle with BubbleWash™. BubbleSoak™ is an optional pre wash treatment that soaks clothes in bubbles before washing.

2

Cycles for speed

Super Speed Cycle

Cut down on laundry time without compromising. Super Speed cycle thoroughly washes up to a 5kg load in just 59 minutes² with dynamic drum rotation and Speed Spray to help remove detergent quickly and reduce rinse time. It also accelerates spin speed to quickly spin-dry clothes resulting in a quick wash.

Quick Wash Cycle

No time to waste? The Quick Wash cycle allows you to wash up to 2kg of laundry in fifteen minutes³ so you can spend less time on chores and more time doing the things you love.

3

Remove up to 99.9% of certain bacteria⁴

Steam Cycle

Give clothes a deep clean with steam. The powerful Hygiene Steam cycle improves the cleaning quality of your wash by releasing steam from the bottom of the drum to thoroughly saturate all clothing items inside. This helps reduce up to 99.9% of certain common bacteria⁴ and allergens⁵

4

Energy Rating

5 Star Efficiency

Help make your home more energy efficient with 5 star energy rating.

Intelligent design and control

5

AI Control

Powerful AI Control personalises your washing experience by remembering your habits, suggesting cycles and displaying timely information⁶. With intelligent recommendations, you can start, stop and set the optimum wash cycle. And when paired with a matching dryer, it even automatically selects the optimal drying cycle⁷ with the Auto Cycle Link function.

Control and monitor from your phone

6

SmartThings App Enabled⁸

Connect your washer to your smartphone through the SmartThings App to start or stop your wash cycle from anywhere, get suggestions on optimal cycles, detect detergent levels, monitor energy consumption and more. Give yourself more control instead of letting your laundry control you.

Easy maintenance

7

Drum Clean+

Keep the door and inside of your washer hygienic with Drum Clean+. A powerful jet and fast spinning action help remove grime or residual detergent that collects on the inside of the washing machine. And it notifies you when its time to clean again!⁹

Remove detergent build-up

8

StayClean Drawer

Save yourself the hassle of removing detergent residue with the StayClean Drawer. It helps ensure that most of the detergent is washed away with a specially designed water flushing system and the tray stays clean.

Durable performance

9

20 Year Digital Inverter Warranty¹

Digital Inverter Technology utilises strong magnets for a quiet and powerful performance. By eliminating the use of brushes, it provides outstanding durability, backed-up by an 20 year Parts Warranty¹.

1 See warranty Card or visit www.samsung.com.au for details

2 Based on using Super Speed at the default settings with a 5kg load.

3 The Quick Wash cycle can be adjusted for loads 2kg or less, with as little as 15 mins for a complete wash cycle for lightly soiled laundry.

4 Based on the Intertek test report for the Hygiene course. Removes 99.9% of certain bacteria, including Staphylococcus aureus and Escherichia coli. Individual results may vary.

5 Based on The British Allergy Foundation (BAF) test report for the Hygiene Steam course. Removes allergens derived from house dust mites

6 Before 10 washes, the list will remain in its default sequence. Cycle suggestions continuously evolve according to usage patterns.

7 Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected.

8 Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

9 Provides a notification after every 40 cycles.
