

BIM25303XM

81 lt. gross capacity Multifunction Built-in Oven

Smart Solutions

Catalytic Back Wall

Nanocoating Technology

Pull-out Telescopic Shelving System

Multi Dimensional Cooking

Easy to Remove Side Racks

Main Features

Oven feature:	Multifunctional Cooking
Gross volume:	81 Litres
Net volume:	71 Litres
Multidimensional cooking:	Yes
Detachable side racks:	5 levels
Standard telescopic shelving:	1 Level (level 3)
Display type:	LED Display - Push In Push Out Knob control
Key lock:	Yes
Cooling fan:	Yes
Max. temperature:	280°C

Design

Colour:	Anti-fingerprint inox
Door activated Interior illumination:	1 x Round Halogen light (Rear)
Layers of door glass:	2
Inner door type:	Full glass (removable)

Cleaning

Catalytic liners:	Rear
Nano Coating Technology on Inner Door Glass:	Yes

Functions

Number of functions:	8
	Top & Bottom Heating
	Bottom Heating
	Fan Assisted Heating
	Fan Only (Defrost)
	Fan Heating (Fan forced)
	3D Function
	Full Grill
	Grill with Fan

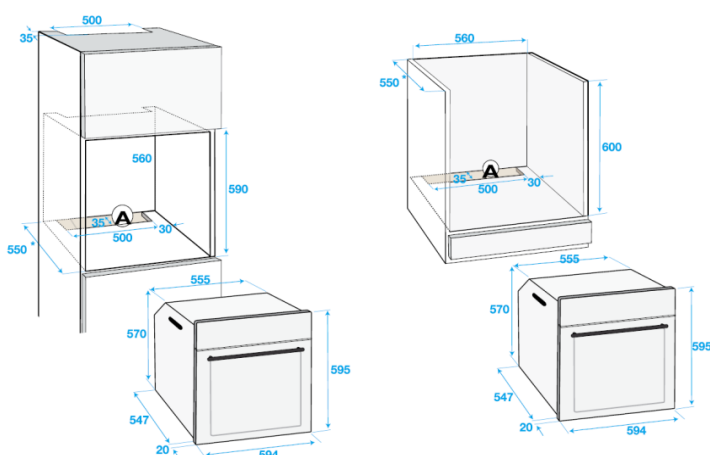

Accessories

Cooking tray (deep):	1
Cooking tray (pastry):	1
Tray rack:	1
Wire shelf for side racks:	2

Dimensions & Weights

Built-in dimensions (WxDxH) cabinet:	56x55x60 centimeters
Built-in dimensions (WxDxH) undercounter:	56x55x59 centimeters
Packaged height:	65.50 centimeters
Packaged width:	66.00 centimeters
Packaged depth:	66.00 centimeters
Packaged weight:	38.2 kilograms

EAN code:	8690842013744

BIM25303XM

81 lt. gross capacity Multifunction Built-in Oven

81lt gross capacity

8 functions

5 level removable shelving

Catalytic panel

Nano Coating Technology

1 level telescopic side racks

Easy to remove side racks

Smooth cavity

Durable oven door

Easy to clean full glass door

Specifications are correct at time of printing. Specifications may change without prior notice.

Catalytic back wall

The catalytic back wall makes cleaning quick and easy. Cleverly absorbing cooking grease and reducing food odours. No more harsh cleaning chemicals!

Telescopic Pull-Out Shelf System

The extending arms of the telescopic pull-out shelf system enables easy and safe access to the oven contents.

Nano Coating Technology

The first nano technology used in domestic ovens! This innovative technology was created by Beko to save you time when cleaning your oven and money on heavy duty cleansers. The oleophobic nano coating technology used on the inside glass door helps resist grease and dirt so your oven will always look great!

Multi Dimensional Cooking

Create delicious meals without keeping your guests waiting. Beko's advanced cooking system allows you to cook three different dishes at the same time without any odour mixing problems. Each tray has its own supply of hot air which is then drawn to the back wall where the odour particles are isolated. This system enables you to cook homogeneously with maximum efficiency, saving time and energy.
