HIGHLY RESISTANT MATTE BLACK FINISH

Premium SCHOTT CERAN® matte black ceramic glass reduces the visibility of scratches up to five times more effectively than traditional ceramic glass. Plus, a special coating reduces the visibility of fingerprints - keeping the cooktop looking clean and elegant with minimal maintenance.

MULTIZONE COOKING

Smeg's Multizone allows users to join two cooking zones and operate them by a single control. Every part of the zone to the edge is usable, without any cold spots, making cooking with larger pots and pans effortless. Use six zones individually, or join the zones to create three large multizones.

EVO SLIDER

White backlit LEDs on the EVO Slider control gives a touch of elegance and minimalist appearance to the cooktop, lighting up only during use. Set the cooktop parameters and adjust power levels effortlessly, transforming your kitchen into a sleek and modern space.

AUTOVENT 2.0

Using Bluetooth technology, your compatible rangehood will automatically adjust based on the power level selected on the cooktop. You will always have the optimal extraction level, leaving your kitchen without condensation and odours.

A PERFECT MATCH TO CLASSIC MATTE BLACK

Pair with a Smeg Classic matte black built-in oven and rangehood for a beautiful and cohesive full matte black kitchen solution.
