# I.H.T. DIGITAL DOOR LOCK IDL707

With the introduction of automated controls, managing everything and anything from anywhere in this world has become a possibility for humans to explore.

# 01

WHY DIGITAL DOOR LOCKS - IT IS  
TIME TO ADOPT SMART HOME  
TECHNOLOGIES

02 ≡

**REAL LIFE  
SOLUTIONS FOR  
EVERYDAY PROBLEMS**

# HOW A NEW LOCK CAN CHANGE YOUR LIFE

**03**

## KEEP FORGETTING YOUR KEY?

The entire idea of a smart lock is to add convenience to your life. You will never lock yourself outside again!

## CHANGING LOCKS AGAIN?

Great news for owners and tenants. Once the old tenant moves out, all you need to do is to reset the access.

## FRIEND OR FAMILY VISITING?

You can monitor and control your smart lock remotely as long as you are connected to Wi-Fi. A smart lock can make life easier for everyone.

# THE SAME BUT DIFFERENT

Not only does i.h.t. Digital Door Lock offer convenience and sleek design, it protects your home with the latest mechanical, electronic and biometric technologies

04

NOT ALL DIGITAL DOOR  
LOCKS ARE THE SAME

6 METHODS TO UNLOCK.  
CHOOSE THE ONE YOU LIKE.

05

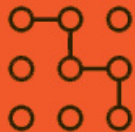

Fingerprint

Remote Access

Temporary Pin

Passcode

Mechanical Key

Card

**FINGERPRINT IS  
MY FAVOURITE.  
WHAT IS YOURS?**

# 0.3 SECONDS TO ID YOUR FINGERPRINT

06

## **MILITARY GRADE SECURITY ENCRYPTION**

Identification data is encrypted, protecting user's privacy.

## **3D PROCESSOR WITH 64K BUILT IN ALGORITHM**

Enclosed and isolated, the core processor keeps learning your fingerprints, making each unlock faster and smoother.

## **SEMICONDUCTOR FINGERPRINT RECOGNITION**

The capacitive sensor analyses fingerprints by measuring the electrical current discharged by the finger, rejecting prothesis fingerprint copies.

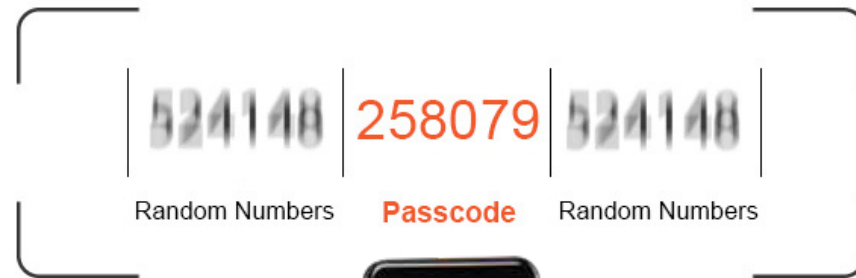

# PASSWORD IS ALSO A GOOD ALTERNATIVE

If fingerprint is not your thing, try password.

07

## ANTI-PEEKING VIRTUAL PASSCODE

Hide Your Passcode Among Random Numbers

## FANCY MORE OPTIONS? TAP & UNLOCK.

If you still prefer something resembling to a key, you can use a compact smart card to open the door. It can be easily deactivated if lost.

# HAVE FRIENDS OR VISITORS STAYING?

Set up a temporary passcode for visitors or tenants during their stay.

# YOU ARE NOT HOME? NO WORRIES!

10

## GRANT ACCESS REMOTELY

When visitors turn up at your doorstep, you can give them access by using the i.h.t. app.

## REAL TIME ACCESS NOTIFICATIONS

You can turn on the notification function and be notified every time your lock is operated.

## FULL RECORDS OF ENTRIES

The i.h.t. app will keep a full record of all entries so you can know the user and time of their entry.

**WHY NOT MAKE IT EVEN  
BETTER?**

We have included a number of special features to the digital door lock to make it safer and smarter.

**OUR SPECIAL  
TOUCHES**

## NOT JUST A PRETTY FACE.

The body of the lock is made of super strength aluminium alloy, specially made to protect your loved ones.

# WATERPROOF AND DUST PROOF

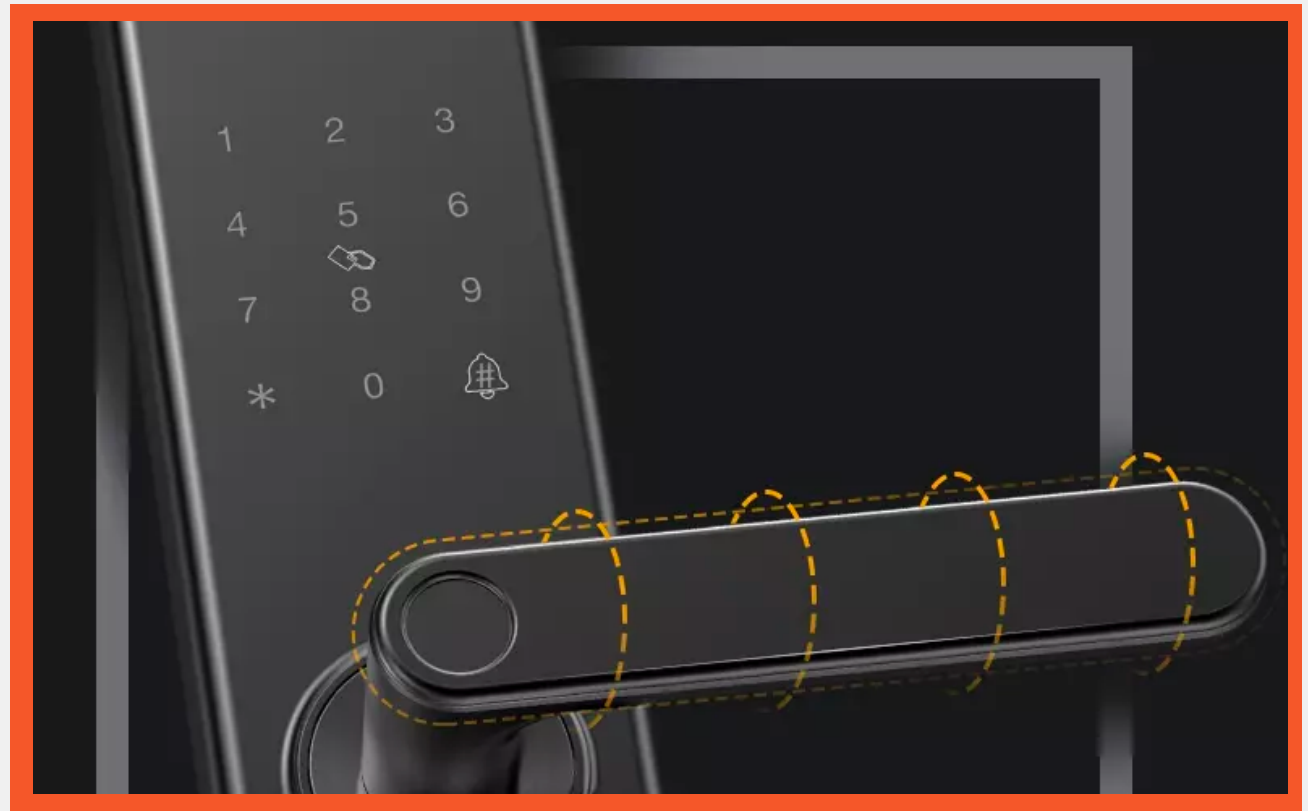

Don't let little things ruin your day.

13

## SINGLE FLUID ACTION TO UNLOCK

Built in fingerprint scanner on the ergonomic handle, unlocking your door has never been easier and quicker.

# BUILT-IN DOOR BELL

Another thoughtful feature to add versatility to the lock. When door bell is rung, you will be notified by in-app notifications even you are not home.

15

## AUTOMATIC LOCKING

Lest you forget to lock the door after entry, we have made it automatic for you.

# ALWAYS ON THE WATCH FOR YOU

Instant alarm notification when detects opening the lock by force or multiple incorrect passcode attempts.

17

## POWERFUL BUT NOT HUNGRY FOR POWER

When battery level reaches less than 10%, audible voice reminders will be triggered. Emergency external charge port can also connect a power bank to the door lock via micro USB to unlock.

### 4 × AA BATTERIES LAST UP TO 1 YEAR

⚡ Low Power Consumption

Power saving technology

365 Days

Long battery life

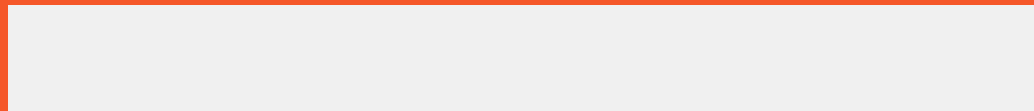

**04**

**WE GET YOU**

**We know you may have some concerns ...**

# WE HAVE THOUGHT ABOUT IT...

## DIGITAL DOOR LOCK STOP WORKING FOR WHATEVER REASON?

The lock is designed for durability and has passed the test for 500,000 cycles. We have kept the conventional key as the last resort backup.

## WHAT HAPPEN IF THERE IS A POWER OUTAGE?

Not an issue. The digital lock runs on batteries. 4 pieces of AA batteries generally last for 12 months.

## I HAVE A LARGE FAMILY AND EVERYONE WANTS TO ADD A FINGERPRINT?

The lock can save up to 100 fingerprints, passcodes and smart cards. Plenty of space for everyone.

21

# NEED SOME HELP? WE ARE HERE....

i.h.t. technical support team is based in Australia, we can help:

- set up the lock once installed;
- technical issues;
- warranty claims;
- many more...

We also provide complimentary lifetime battery replacement service every 12 months, so you can focus on important things.

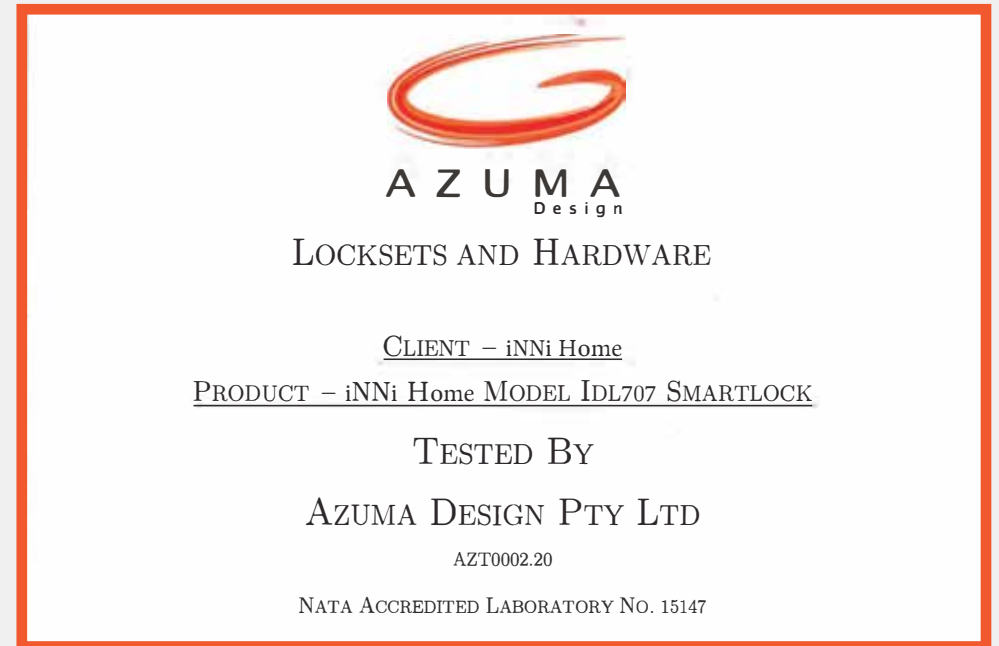

# AUSTRALIAN STANDARDS CERTIFICATION

## Fire Resistance Test

AS 1530.4:2014 - 120/30/38mm

## Security & Durability Test

AS 4145.1-2008 & AS 4145.2-2008
