Allergy rating – homes today have a high level of dust and airborne particles and allergies are becoming more and more prevalent. The Nilfisk Select reduces the dust levels in your home with an 'A' dust - emission rating with the inclusion of an efficient HEPA 13 or 14 filters. HEPA 13 filters secure cleaning without dust particles re-entering your home. For an even greater level of protection some Nilfisk Select models are equipped with a HEPA 14 filter. HEPA 13 and 14 filters are able to pick up the microscopic particles and return the filtered air to the room even cleaner than the air was to begin with.
