IMPORTANT SAFETY PRECAUTIONS

READ ALL INSTRUCTIONS BEFORE USING THIS VACUUM CLEANER

When using an electrical appliance, basic precautions should always be followed, including the following:

WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY:

1. This vacuum cleaner is for domestic use only. Do not use outdoors or on wet surfaces.
2. Do not handle plug or vacuum cleaner with wet hands.
3. Close attention is necessary when used by or near children.
4. Do not use with damaged cable or plug. If the supply cable is damaged, it must be replaced by Dyson's authorised service centres in order to avoid a hazard.
5. If the vacuum cleaner is not functioning properly, has been dropped, damaged, left outdoors, or immersed in liquid, do not use, contact the Dyson Customer Care Helpline.
6. Do not use the vacuum cleaner if any parts appear to be faulty, missing or damaged.
7. Ensure all parts including the clear bin are securely attached before using or carrying the vacuum cleaner.
8. This vacuum cleaner is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the vacuum cleaner by a person responsible for their safety. Children should be supervised to ensure that they do not play with the vacuum cleaner.
9. Do not leave vacuum cleaner when plugged in. Unplug from outlet when not in use, and before performing user maintenance, connecting or disconnecting the hose or changing accessories.
10. Store the vacuum cleaner indoors. Do not use or store this vacuum cleaner below 0°C (32°F). Ensure that the vacuum cleaner is at room temperature before operating. Put the vacuum cleaner away after use with the cable stored safely, to prevent tripping hazards.
11. If the vacuum cleaner overheats it will cut-out. It must be switched off, unplugged and allowed to cool down before attempting to check filters or for blockages. Ensure any blockage is cleared before restarting the vacuum cleaner.
12. Turn off all controls before unplugging.
13. Do not unplug by pulling on cable. To unplug, grasp the plug, not the cable.
14. Do not pull or carry by cable, use cable as a handle, close a door on cable, or pull cable around sharp edges or corners. Do not run vacuum cleaner over cable. Keep cable away from heated surfaces.
15. The use of an extension cable is not recommended.
16. Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts, such as the brush bar.
17. Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair and anything that may reduce airflow. Switch off and unplug the vacuum cleaner before attempting to remove any blockage.
18. Take extra care when vacuuming on stairs. Do not work with the vacuum cleaner above you on the stairs.
19. Keep the vacuum cleaner on the floor. Do not put the vacuum cleaner on chairs, tables etc.
20. Do not shake the vacuum cleaner or press the cyclone release button while carrying the vacuum cleaner, or it could fall and cause injury.
21. Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
22. Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
23. Check to ensure your electricity supply matches that shown on the rating plate. The vacuum cleaner must only be used as rated.
24. Use only as described in this manual. Use only Dyson recommended attachments.
25. Do not use without clear bin and filters in place.
26. Do not lubricate any parts, or carry out any maintenance or repair work other than that shown in this manual, or as advised by the Dyson Customer Care Helpline.

SAVE THESE INSTRUCTIONS

THIS VACUUM CLEANER IS INTENDED FOR HOUSEHOLD USE ONLY

Do not pull on the cable.

Do not store near heat sources.

Do not use near naked flame.

Do not run over the cable.

Do not pick up water or liquids.

Do not pick up burning objects.

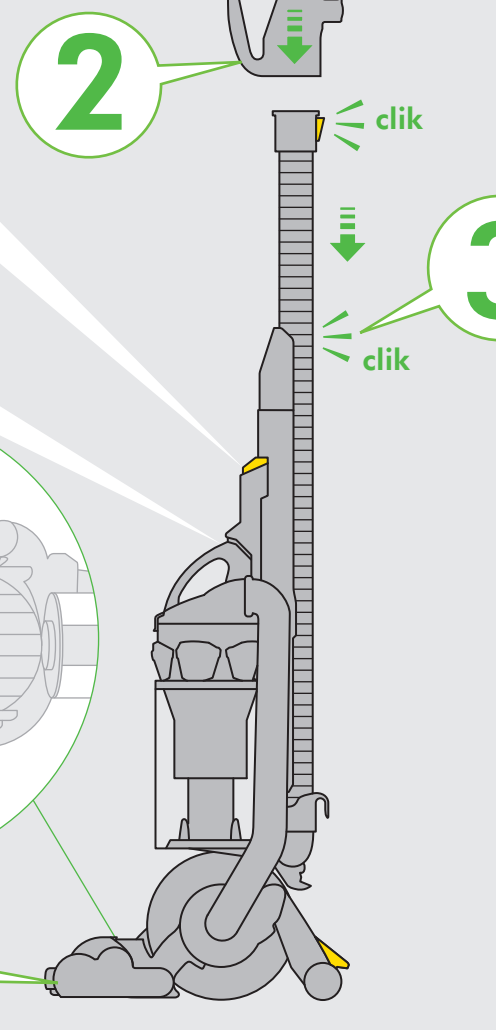

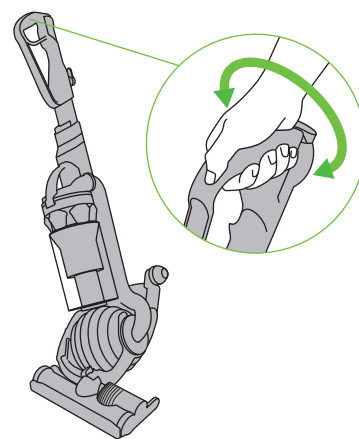

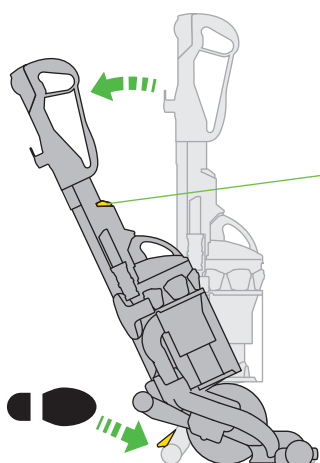

Do not use above you on the stairs.

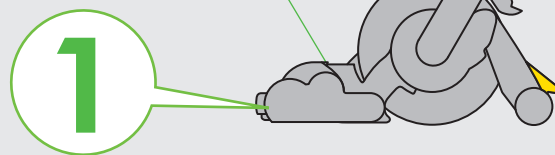

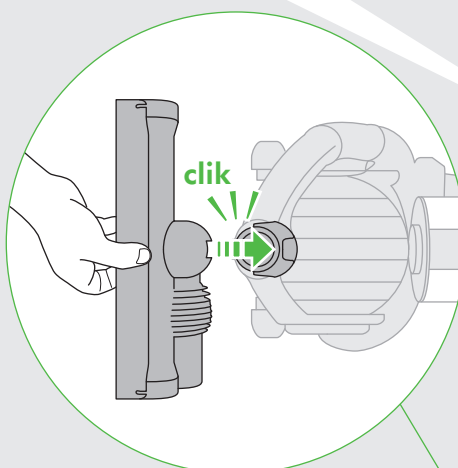

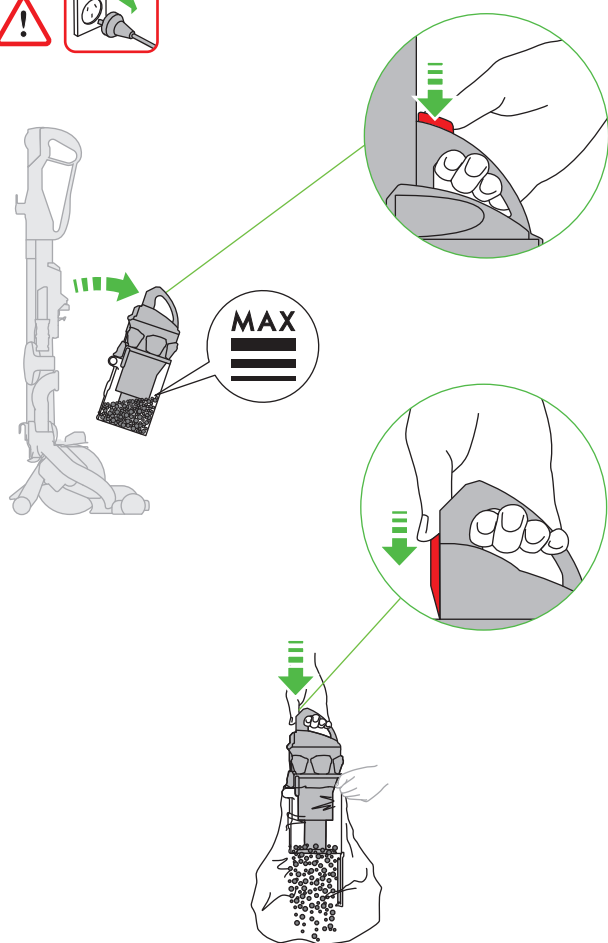

Do not put hands near the brush bar when the vacuum cleaner is in use.

IMPORTANT!

WASH FILTERS

 **3**
months

A Filter

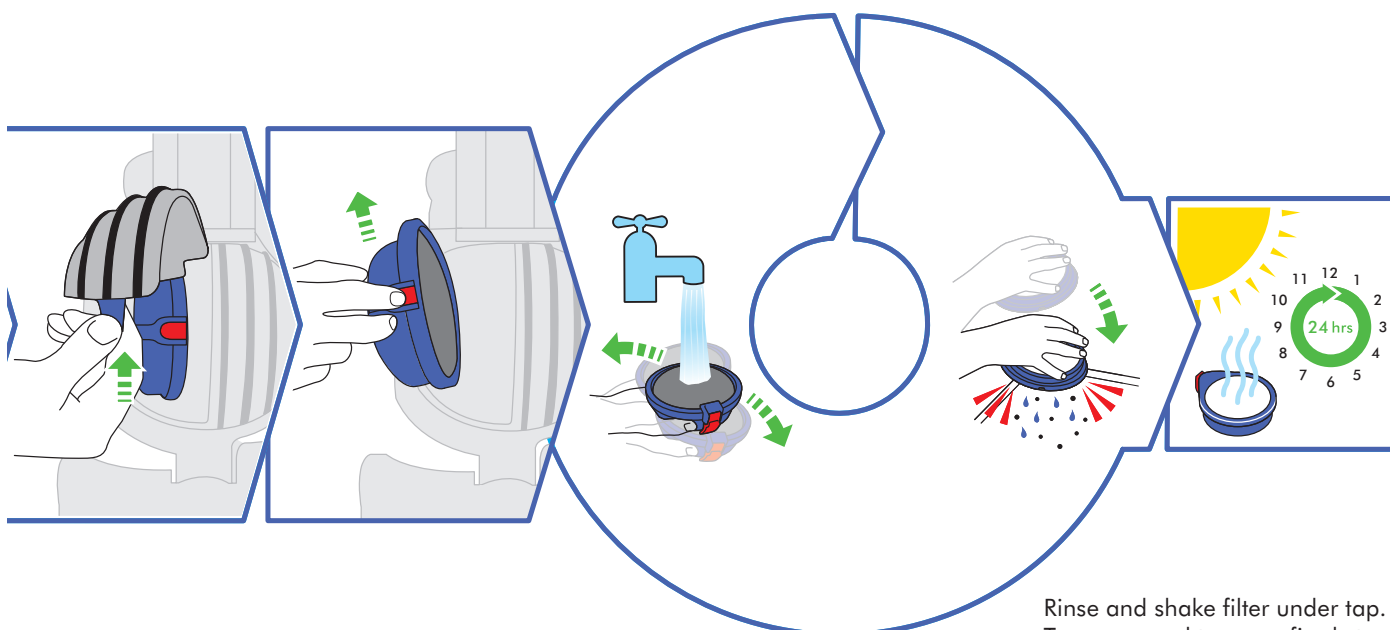

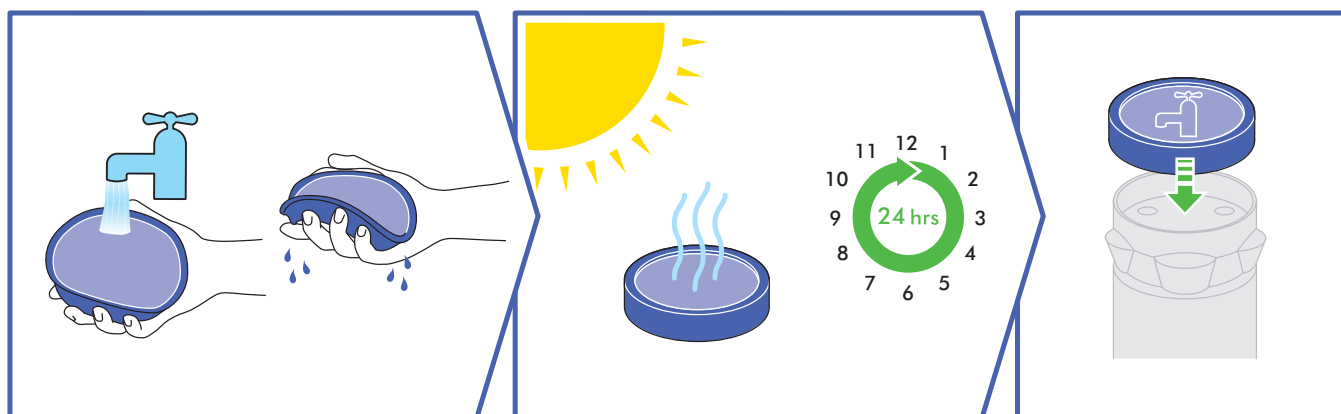

B Filter

Wash filters with cold water at least every 3 months.

Register for a filter wash reminder by email (Australia only);
customercare@dyson.com.au

Rinse and shake filter under tap.
Turn over and tap very firmly to
remove motor emissions.
Repeat until water runs clear.

ASSEMBLY

- Lie vacuum cleaner flat and push on cleaner head until it clicks. Stand vacuum up straight, insert wand into hose and push into place until it clicks. Attach tool to the side of the vacuum cleaner.

USING YOUR DYSON VACUUM CLEANER

Press foot pedal and recline handle to use. The stabiliser stand will automatically lift up. To switch 'ON', press power button in front of handle. When finished cleaning, push vacuum cleaner into an upright position and stabiliser wheels will automatically drop. Use the carrying handle to carry the vacuum cleaner.

CAUTION:

- When returning to the upright position, ensure that the stabiliser wheels are fully engaged before releasing the cleaner.
- Do not press the cyclone release button while carrying the vacuum cleaner or it could fall and cause injury.

PLEASE NOTE:

- Fine dust such as plaster or flour should only be vacuumed in very small amounts.
- Do not use the vacuum cleaner to pick up sharp hard objects, such as small toys, pins, paper clips etc.
- Consult your flooring manufacturer's recommended instructions before vacuuming and caring for your flooring, rugs and carpets. Some carpets will fuzz if a rotating brush bar is used when vacuuming. If this is the case, we recommend vacuuming in hard floors mode and consulting with your flooring manufacturer. (Refer to carpets/hard floors section.)
- If used in a garage when cleaning the car, care should be taken to wipe the soleplate and wheels with a dry cloth after vacuuming to clean off any sand, dirt or pebbles which could damage delicate floors.
- When vacuuming, certain carpets may generate small static charges in the clear bin. These are entirely harmless and not associated with the main supply. To minimise any effect from this, do not put your hand or insert any object into the clear bin unless you have emptied it and rinsed it out with cold water.
- Only use parts recommended by Dyson; failure to do so could invalidate your guarantee.

CARPETS/HARD FLOORS

The brush bar will always default to 'ON' (spinning) each time you switch on the vacuum cleaner and recline it for cleaning. The brush bar will automatically stop if it becomes obstructed. If the brush bar stops during use, please refer to the 'Clearing brush bar obstructions' section.

To switch the brush bar off (e.g. for hard floors), recline the vacuum cleaner and turn it 'ON', then press the brush bar 'on/off' button – the brush bar will stop spinning.

HIGH-REACH CLEANING

CAUTION:

- Powerful suction can cause the hose to 'pull back' – please take care.
- To avoid personal injury and to prevent the vacuum cleaner from falling when cleaning stairs, do not work with the vacuum above you on the stairs.

EMPTYING THE CLEAR BIN

CAUTION:

- Switch 'OFF' and unplug the vacuum cleaner before emptying the clear bin.
- Empty as soon as the dirt reaches the level of the MAX mark – do not overfill. To remove the clear bin from the vacuum cleaner press the button at rear of carrying handle. To release the dirt, press the red bin release button.
- To minimize dust/allergen contact when emptying, encase base of bin tightly in a plastic bag before trigger releases dirt. Remove bin carefully and seal bag tightly, dispose as normal.

PLEASE NOTE:

- Do not use the vacuum cleaner without the clear bin in place.

CLEANING THE CLEAR BIN

CAUTION:

- Do not immerse the whole cyclone in water or pour water into the cyclones.
- Ensure the clear bin is completely dry before replacing.

PLEASE NOTE:

- Do not use detergents, polishes or air fresheners to clean the clear bin.
- Do not put the bin in a dishwasher.

WASHING YOUR FILTERS

CAUTION:

- Switch 'OFF' and unplug the vacuum cleaner before removing the filters.
- Ensure filters are completely dry before refitting into the vacuum cleaner.

PLEASE NOTE:

- This vacuum cleaner has two filters, located as shown. It is important to check your filter and wash at least every 3 months, according to instructions, to maintain performance.
- The filter in the ball should be rinsed and tapped out until the water runs clean, then tapped out again to ensure all excess water is removed. Please leave to dry completely for 24 hours.
- It is normal for the filter in the ball to turn grey in colour. The filters may require more frequent washing if vacuuming fine dust.
- Do not use detergents to clean the filters.
- Do not put the filters in a dishwasher, washing machine, tumble dryer, oven, microwave or near a naked flame.
- Register for a filter wash reminder by email (Australia only); customercare@dyson.com.au

LOOKING FOR BLOCKAGES

CAUTION:

- Switch 'OFF' and unplug the vacuum cleaner before checking for blockages.
- Please ensure vacuum cleaner is upright before removing hose or airway inspection parts.
- Beware of sharp objects when clearing blockages.
- Refit all parts of the vacuum cleaner securely before using.

PLEASE NOTE:

- Clearing blockages is not covered by your vacuum cleaner's limited guarantee. If any part of your vacuum cleaner becomes blocked, it may overheat and then automatically shut off. Unplug the vacuum cleaner and leave to cool down. Clear blockage before restarting.

CLEARING BRUSH BAR OBSTRUCTIONS

CAUTION:

- Switch off and unplug the vacuum cleaner before clearing brush bar obstructions. Failure to do so could result in personal injury. If your brush bar is obstructed, it may shut off. If this happens you will need to remove the brush bar as shown and clear any obstructing debris.

2 YEAR DYSON GUARANTEE TERMS AND CONDITIONS

- The guarantee becomes effective from the date of purchase.
- All work will be carried out by Dyson Appliances (Aust) Pty Ltd, Dyson's authorised Service Agents or Avery Robinson Ltd (New Zealand).
- Any parts replaced will become the property of Dyson Appliances (Aust) Pty Ltd.
- The repair or replacement of your vacuum cleaner under guarantee will not extend the period of guarantee.
- The guarantee provides benefits which are additional to and do not affect your statutory rights as a consumer.
- You must provide proof of purchase before any work can be carried out on your vacuum cleaner. Without this proof, any work carried out will be chargeable. Please keep your receipt.

WHAT IS COVERED

- The repair or replacement of your vacuum cleaner if your vacuum cleaner is found to be defective due to faulty materials, workmanship or function within 2 years of purchase (if any part is no longer available or out of manufacture, Dyson will replace it with a functional replacement part).

WHAT IS NOT COVERED

Dyson shall not be liable for costs of repair or replacement of a product incurred as a result of:

- Normal wear and tear (e.g fuse, belt, brush bar).
- Industrial use of the vacuum cleaner such as vacuuming gyprock dust or builders dust may void your guarantee.
- Accidental damage, faults caused by negligent use or care, neglect, careless operation or handling of the vacuum cleaner which is not in accordance with the Dyson Operating Manual.
- Blockages – please refer to the Dyson Operating Manual for details on how to unblock your vacuum cleaner.
- Use of the vacuum cleaner for anything other than normal domestic purposes in the country of purchase.
- Use of parts not assembled or installed in accordance with the instructions of Dyson.
- Use of parts and accessories other than those produced or recommended by Dyson.
- External sources such as transit damage or weather.
- Repairs or alterations carried out by parties other than Dyson or its authorised agents.

If you are in any doubt as to what is covered by your guarantee, please call the Dyson Customer Care Helpline on:

Australia 1800 239 766

New Zealand 0800 397 667

Remember: Always disconnect plug from mains before inspecting for problems.

- If your vacuum cleaner will not operate, first check: mains socket has electricity supply and the plug is properly inserted into the socket.
- Sucking up certain items such as stockings, clippings of cloth, sizeable pieces of paper etc may block the hose or ducts. Should a blockage occur, first disconnect the vacuum cleaner from the electricity supply and refer to the 'blockage' section in the Dyson Operating Manual.
- Never pick up hot cinders or lit cigarette ends.
- Do not attempt to pick up water with your Dyson vacuum cleaner. It has not been designed as a wet pick-up cleaner.

If you are still experiencing problems with your Dyson vacuum cleaner, please call the Dyson Customer Care Helpline on:

Australia 1800 239 766

New Zealand 0800 397 667

REGISTERING YOUR GUARANTEE

To help us ensure you receive prompt and efficient service, please register as a Dyson owner. There are three ways to do this:

- Online at (Australia only) www.dyson.com.au/register
 - By calling the Dyson Customer Care Helpline.
 - By completing and returning the enclosed form to us by mail.
- This will confirm ownership of your Dyson vacuum cleaner in the event of an insurance loss, and enable us to contact you if necessary.

DYSON CUSTOMER CARE

If you have a query about your Dyson vacuum cleaner call the Dyson Customer Care Helpline quoting the serial number, or contact us via the Dyson website. The serial number can be found on the the main body of the vacuum cleaner behind the clear bin.

Most queries can be solved over the phone by one of our Dyson Customer Care Helpline staff.

If your Dyson vacuum cleaner needs a service, call the Dyson Customer Care Helpline so we can discuss the available options.

If your vacuum cleaner is under guarantee and the repair is covered, it will be repaired at no cost.
