BEAN TO CUP COFFEE MAKERS

- Adaptive Grinding Technology, electronically controlled precision grinding for the best flavour: 2 grinders and a new electronic control guarantee a precise and consistent grinding and a long-lasting performance, preparation after preparation
- Two independent bean containers for a more personal coffee experience: the end-user can choose, via display, which type of coffee beans to be used for his beverage preparation
- Thanks to the new LatteCrema thermal carafe with moving arm, users can deliver double milk beverages in one shot. Moreover, milk foam can be easily regulated from the display
- From authentic Italian Espresso to Cappuccino, from Coffee to Flat White, Maestosa can deliver multiple recipes with just one touch, including Cold Coffee (thanks to the dedicated MixCarafe) Coffee pot and a selection of beverages served for 2
- Breakthrough design and innovative finishings: users can be delighted by an elegant striped stainless steel body, an ultra-mirror stainless steel top cover and bright black glass front panel
- 5" full touch TFT colour display and Coffee Link App for the maximum ease of use and interaction

**DISCOVER COFFEE BEANS**

More than a perfect Espresso thanks to two beans containers and two grinders with the innovative Adaptive grinding Technology

**DOUBLE MILK PERFECTION**

More than a perfect Cappuccino thanks to the new LatteCrema thermal carafe, the double cappuccino function and the electronic regulation of milk foam

**WIDE VARIETY OF DRINKS**

From authentic Italian Espresso to Cappuccino, from Coffee to Flat White, enjoy multiple recipes with just one touch, including Cold drinks

TECHNICAL DATA

Dimensions (wxdxh)	mm	290x468x405
Weight	Kg	16,8
Input power	W	1550
Rated voltage/Frequency	V~Hz	220/240~50/60
Pump	bar	19
Water container overall capacity	l	2,1
Beans container capacity	g	2x290
Milk carafe capacity	l	0,5
