ProSmart Inverter Motor Technology

ProSmart Inverter Motor Technology provides increased efficiency and reliability by consuming less energy whilst prolonging the life of the machine. Uniquely patented unbalanced load detection and combination of different wash motions will deliver a superior washing experience.

Pet Hair Removal Function

Beko has developed a smart solution for pet lovers with a function that removes pet hair on laundry during the wash cycle. When this function is selected, your machine adds a pre-wash and additional rinsing steps to the normal cycle. Thanks to this smart solution by Beko, pet hair is removed from your laundry in an effective way, solving one of the main problems of all pet lovers.

CoolHygiene 20 °C Program

CoolHygiene 20 °C Program washes your lightly soiled clothes at 20 degrees providing hygienic wash results while still keeping the look of your clothes. The hygienic wash results of CoolHygiene 20 °C Program is tested and approved by independent VDE Test Institute.

Anti-Allergy+

Specially designed to care for babies and toddlers or for people with sensitive skin, it extends the washing time and applies extra rinsing to avoid allergy problems related to sensitive skin.
