SERIE

75CM BUILT-IN OVEN

LIVE WITH
ILVE
KITCHEN APPLIANCES
MADE IN ITALY

ILVE's new 750 Series built-in ovens are the culmination of 2 years of research and development to bring Australian homes a oven that has the technology, sophistication and appearance that embodies the ILVE brand whilst having many functional advantages over its competitors.

The new size of the cooking cavity provides more cooking space and maximises the full internal size of the oven. Our new ULTRA-Clean light grey, nickel-free enamel interior reduces the toxicity of materials in contact with foods and is easy to clean. Another new feature is the S-MOVE soft-closing door allows you to gently close the oven door with a simple push, preventing door impact; without using your hands, which are free to perform other tasks. Standard in the oven are Telescopic racks and are totally removable making the use of the ovens baking trays and general cooking in the oven easy and effortless. The Full size inner door glass provides a panoramic view from the outside of the oven door of what is inside the oven, its full width also enables easy cleaning with no crevices for food scraps and residue to get trapped.
