Width	596mm

Features & Benefits

Multi-function Flexibility
Featuring eight functions with pre-set temperatures including Roast, Pizza Bake and Fan Forced, this built-in oven supports a variety of cooking styles.

Generous Capacity
With a total capacity of 85L, this built-in oven was designed for multi-shelf cooking. The generously sized internal cavity gives you the option to create several dishes at once.

ActiveVent Technology
Our unique ActiveVent technology controls moisture levels while AeroTech™ technology circulates heat evenly - ideal for multi-shelf cooking.

Pyrolytic self-cleaning
Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Refined styling
With sophisticated handle styling and black glass finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

CoolTouch Door
The CoolTouch door of this built-in oven is safe to touch from the outside. Sturdy, fully extendable shelves slide all the way out, reducing the need for you to reach inside.
