Award Winner

## PRODUCT HIGHLIGHTS

### QUIET OPERATION

Even at full power, Smeg's stand mixer quietly mixes your ingredients. Resulting in a more enjoyable cooking experience.

### POWER & TORQUE

800 watts of power with optimum torque for mixing of heavy doughs. With more power there is less strain on the motor which means it doesn't cut out or overheat. The Smeg stand mixer can make mixtures quickly and efficiently.

### VARIABLE SPEED CONTROL

10 settings guarantees the greatest versatility for all applications. Top mount control for left or right handed use. Quick guide symbols indicate correct speed for accessory in use.

### SMOOTH START

Automatic smooth start prevents ingredients from spilling out of the bowl. Results in more effective mixing and ensures a cleaner work area around the mixer.

### FRONT ACCESSORY PORT

Smeg offers a wide range of accessories for operation via the front port – offering the ultimate in versatility for all your preparation needs.

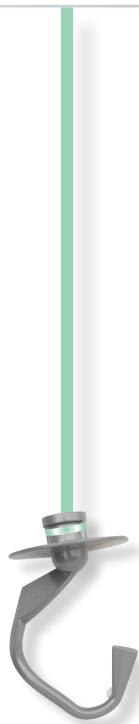

### GLASS BOWL

The Smeg stand mixer utilises an Italian made 4.8L glass bowl that is suitable for all preparations. It makes it easier for liquid ingredients to be measured and seen while being mixed together. It can be placed in the freezer for a maximum of 24H at -24°C or in the microwave for 15 minutes at 300W.
