	The replacement DryPod refill uses silica gel (SiO_2) to absorb moisture. When DryPod is at full moisture holding capacity, the SiO_2 beads change colour from orange to green indicating it needs to be placed on redry base ready to reuse. DryPod has a very long life offering 300 reusable cycles.	https://digitalassets.cdbgroup.com/asset/f5ebbc7d-2dc5-4509-b0c1-bb6f422ae204/top-x-12.jpg
