#### Help preserve freshness in your food

#### **All-Around Cooling**

No matter where your food is stored in the fridge, it will be cooled. All-around Cooling technology continually checks the internal temperature and blows out cold air when needed. Multiple air vents on every shelf can help ensure even distribution of cold air from corner to corner to help keep your food fresh.

### Control and monitor from your phone

## Wi-Fi enabled convenience with SmartThings

Connect your refrigerator to your smartphone through the SmartThings App¹to manage energy, food, recipes and troubleshooting. Take care of your food and your refrigerator easily.

### **2A** SmartThings AI Energy Mode

## Up to 30% energy saving with AI Energy Mode<sup>5</sup>

Activate AI energy mode to help monitor and reduce your energy consumption. AI Energy Mode analyses your usage patterns and surroundings to optimise the compressor speed and defrost cycle to help reduce your energy use<sup>5</sup> by up to 30%.

## **2B** Real-time monitoring & alerts

### SmartThings Home Care<sup>1</sup>

Easily monitor the status of your compatible fridge in real-time with SmartThings Home Care<sup>1</sup>. You can also receive automatic notifications and suggested solutions if certain parts need replacing or problems are detected.

#### Thinner walls. More space inside.

#### SpaceMax™

Store more food with the spacious interior of SpaceMax<sup>™</sup>. Special high urethane insulation technology means that refrigerator walls are thinner. This results in more usable space inside the fridge<sup>3</sup> without increasing the external dimensions or compromising efficiency. The flat cooling duct in the rear wall also reduces 'dead space'.

#### Ice cubes in a twist

Twist Ice Maker
A simple twist o

A simple twist of the Ice Maker is all it takes to dispense a large quantity of ice cubes to stay cool in the warmer weather. Then when the weather starts to cool down, simply detach and remove the Ice Maker to make room for your winter essentials.

#### Easily store more fruit and vegetables

Big Veggie Box

A large capacity Veggie Box provides a convenient space to store a large amount of fresh Fruit and Vegetables. And because it's so big, it's much easier to find everything - all in one place and easy to get to.

#### Fast, cold, blast.

Power Cool / Power Freeze

At the touch of a button, Power Cool blows intensely cold air into the fridge, so foods and drinks are chilled quickly. And Power Freeze delivers a fast blast of cold air into the freezer. It's great for freezing or firming up frozen food, like ice cream, and making more ice. 4

#### 20 Year Compressor Warranty<sup>2</sup>

**7** Al Inverter Compressor

Purchase with confidence. Al Inverter technology offers outstanding performance and is backed up by our 20 year limited parts warranty<sup>2</sup>.

<sup>1</sup> Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

<sup>2 20</sup> year warranty is limited to the compressor only. See warranty Card or visit www.samsung.com.au for details

<sup>3</sup> Compared with Samsung refrigerators without SpaceMax™ technology.
