

High performance outdoor speakers with outstanding sound quality and weatherproofing. The simple design allows them to be installed in many types of locations.

High Sound Quality

- Yamaha's advanced speaker design combines superior sound quality with excellent weatherproofing
- Two-way bass reflex design
 - Powerful woofer delivers accurate mid/low frequency response
 - Balanced dome tweeter ensures clear high frequency response
- Excellent audio performance, weatherproof cabinets that are drip, water and UV resistant

Convenient Design

- Simple design looks natural on a home exterior, on a patio or inside a room
- Two sizes and two color variations allows you to choose the best match in various installations
- Flexible installation options with supplied mounting brackets
- Powder-coated grilles provide outstanding weatherproof properties
- Push type speaker terminals for easy installation

High Quality and Durability

Superior Yamaha Performance
With long experience in producing high fidelity speakers, Yamaha is a leader in speaker design. These All-Weather Speakers benefit from that experience, featuring high audio performance combined with durable weatherproofing. Now you can enjoy Yamaha's superb natural sound outdoors as well as inside your home.

Two-Way Bass Reflex Design for Powerful, High Quality Sound
The well-balanced, two-way bass reflex design delivers powerful sound output. The large woofer (NS-AW294:6-1/2"/16cm; NS-AW194: 4"/10cm) ensures rich, strong bass, and the 1" (2.5cm) fluid-cooled, balanced dome tweeter provides clear high frequency response.

Highly Durable Cabinets Designed for Sound Quality
The specially processed plastic cabinets ensure both excellent sound quality and durability. They are drip, water and UV resistant, maintaining their excellent performance during outdoor use.

Convenient Design and Features

Simple, Elegant Design
These speakers have a clean, simple design that will look attractive in any location on the exterior of your house, and even present a tasteful appearance when used in an interior installation.

Two sizes, Two Colors
Available in two types and in white or black, you can choose the model that best matches your desired exterior or interior installation location.

Wide Range of Installation Possibilities
The supplied brackets allow you to adjust the speakers to match the installation location. They can be installed vertically or horizontally, and can be moved through a range of 81° to the right or left and up or down directions.

Powder-Coated Grille
The grille has a special powder coating that gives it outstanding weatherproof properties.

Push Type Speaker Terminals
The push type terminals make connecting speaker cables a quick and easy operation.
