Built-in Oven, 60cm 90L, 11 Function

This Fisher & Paykel 60cm, 90L built-in oven has 11 handy functions, including a self-cleaning function, for a variety of cooking styles.

Black glass

Dimensions

Depth	577mm
Height	Ⓐ 598mm
Width	Ⓑ 597mm

Features & Benefits

Cooking flexibility

This built-in oven has 11 functions with pre-set temperatures, including Roast, Pastry Bake and Fan Forced allowing you to use a variety of cooking styles.

Self cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. For best results, wipe down the inside of your oven door before you use this function.

Sized to suit

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market providing 90L total capacity. The higher internal cavity allows you to fit a large casserole dish, the family roast and a pie for dessert.

Safe and sound

The CoolTouch door with quadruple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Designed to match

With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Perfect results

This built-in oven features ActiveVent - a unique technology that optimises moisture levels, essential when cooking a succulent roast chicken or a light pavlova. AeroTech technology circulates heat evenly, ideal for multi shelf cooking.

Self Cleaning

Pyrolytic Self-Clean activates a high temperature of 460oC for two to three hours, breaking down residue to a light ash - this is easily removed with a damp cloth. For best results, wipe down the inside of your oven door before you use this function.
