180° Room-Filling Expansive Sound

The UA7 features a total of 10 speakers – 4x 6cm tweeters, 4x 8cm midrange woofers, and 2x 16cm super woofers. The 16cm woofers are positioned back-to-back to eliminate vibration and produce distortion-free sound. By positioning the midrange woofers and tweeters on three sides, 180-degree room-filling expansive sound are achieved wherever you are.
