- ✓ **Smart THINQ™ with Wi-Fi**
- ✓ 11kg Capacity
- ✓ Inverter Direct Drive Motor System
- ✓ Standard Footprint External Size
- ✓ 1600rpm
- ✓ Add Item

TrueSteam®

TrueSteam® has the natural ability to fluff up fabric fibres. This allows for the steam particles to clean on a microscopic level. Instead of saturating the stain with just one drop of water, we get 1,600 individual steam particles attacking the stain. By combining both water and steam along with washing at a higher temperature your detergent is dissolved much faster.

Turbo Clean®

Turbo Clean® uses a short burst of water spray from a nozzle located at the front of the drum. This helps deliver quicker wash times by reducing the number of rinse cycles.¹

6 Motion Wash Technology

LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle and your machine selects the best combination of washing motions to give you an outstanding wash, whilst also caring for your clothes.

Smart THINQ™ (Wi-Fi)

With a smartphone and the LG Smart THINQ™ app the washing machine can "talk for itself" to find a solution to help save time and money on unnecessary call outs.² Once connected to your home Wi-Fi, you can remote set and start your washer and even view usage history. When you washing is complete, you will be notified on your Smartphone.²

¹ Turbo Clean® available on selected wash programs. Time saving will vary depending on wash load and cycle selected.

² Compatible smartphone required, Android 4.1.2 (JellyBean) or later or iOS8 or later required for LG Smart THINQ™ app and Audible Smart Diagnosis feature. Mobile 3G/4G or Wi-Fi connection, LG Smart THINQ™ app is required for Remote Start, Usage History & Notifications.
