

BDVN9100B

5.1ch Tallboy Blu-ray Home Theatre System

Available early July 2013

Sound Quality

The BDVN9100 produces crystal clear sound thanks to the Magnetic Fluid speaker technology which minimises distortion when played at high volumes.

The BDVN9100 also features a new specialised sound mode, Football mode which recreates the stadium experience of live sports or concerts. Turn on football mode by pressing one button on the remote to enhance the crowds cheers, turn off commentary and feel part of the action of a live game.

Entertainment

The BDVN9100 will playback a wide range of movie and music files through different devices. Enjoy your favourite DVD, Blu-ray or Blu-ray 3D collection in surround sound. Connect a USB flash stick or USB external hard drive to play a wide range of video, music or image files.

Connectivity

Connect and share your music with one touch technology. Tap your NFC device on the Blu-ray home theatre main unit and music will play through the speakers within seconds. Simple, wireless and no passwords required.

Watch videos on demand, stream music or catch up on your favourite TV shows with over 25 internet channels using the built in Wi-Fi on this model.
