

90cm 'WMP' Double Electric Oven

D900WMP

Some people cook because they love the art of cooking, others cook because it is an activity that relaxes the tensions of a busy week. Whether you're the former or the latter really doesn't matter, our 60 + 30cm double oven will satisfy both. When was the last time you heard of a professional European oven offering a programmable multifunction oven with a 70 litre cooking capacity and full self cleaning interior including the roof. Now that's an interesting invention and a practical one. Right next to it sits a smaller oven that's not only capable of reaching very high temperatures (for baking or grilling) but very low ones. It's called a "proofing" oven and without question is the perfect environment for bread and pastry to rise.
