
B-1000
Instant Filtered
Water System

billihome.com.au

Introducing the Billi B-1000.

The ultimate in convenience –
an instant supply of refreshingly
clean filtered water at home.

The B-1000 large capacity filtration
system efficiently removes
pollutants and impurities from
the water source. Its compact form
and elegant style will complement
a wide range of home designs.

Compact and
elegant design.

A new generation drinking water system.

—High-tech filtration system

Certified by global public safety agency NSF International, Billi's premium sub-micron filters ensure that health-threatening pollutants and impurities such as sediment, chemicals, heavy metals, chlorine and pesticides are safely removed while fluorides are retained, leaving users with refreshingly clean drinking water, every time.

—Save on space

With a focus on space-saving, the compact B-1000 has been designed to simply integrate into any storage module design. It fits easily within a standard cupboard compartment, allowing users to make the most of the available area.

—Flexible font positioning

Combining design flexibility with supreme functionality, the Billi Font can be easily installed wherever it is needed, whether in the sink area or elsewhere – maximising the way space is utilised. And with its classic simplicity, the Billi Font will coordinate with other appliances.

—Style options

A choice of square or rounded Billi slimline tap styles means that it can be matched with surrounding design elements.

—Commitment to quality

A strong commitment to quality is as important to Billi as style, function and innovation. Recognising the importance of reliability to customers, all Billi water systems are manufactured to strict quality standards and built to last. And every system is designed to provide the highest possible standards of efficiency and energy savings.

Cupboard space saving

Design option

Innovative B-1000 design,
a pleasure to use.

Billi B-1000 specifications.

—Options and accessories

- Finishes: Standard finish for the B-1000 dispenser is bright chrome.
- Billi Font: Allows the B-1000 to be located away from sink areas and is finished in polished stainless steel.
- Tubing extension kit: Allows the dispenser to be offset from the underbench unit.

—Easy installation

Installing the B-1000 is simple. Colour-coded flexible tubing and easy-connect fittings ensure a rapid and trouble-free operation.

—Water supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. The water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa.

—Replacement filters

Periodic replacement of filter cartridges is necessary to maintain water quality. Genuine replacement Billi filter cartridges are available online at www.billihome.com.au and from local approved suppliers. Cartridges are also available to suit the particular needs of different water supply areas.

—Warranty

All components of the B-1000 are covered by a 24-month* warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.

*24-month warranty dependant on installation by Billi service technician.

—Certifications

Every Billi drinking water appliance is manufactured under a certified quality control system. The B-1000 has been tested and complies with all required standards, including: Watermark Licence Number 21882; tested to ATS 5200.105:2005; AS/NZS ISO 9001 Certificate Number QEC 11627; C-Tick approved; complies with AS1428 requirements for access for the disabled.
